Fifty-Ninth Year

Canyon, Texas

Wednesday, June 16, 1954

Number 10

## About Half of Wheat Damaged By Hail and Rains

Fully half of the 1954 wheat crop has been damaged by hail and heavy rains, is the report of observers from all parts of the county.

The loss may not be total in all cases since a large part of the late crop may make a fair yield with continued favorable weather. Rain Thursday night in Canyon measured .95 of an inch; followed by .68 of an inch Sunday night. Heavier rains have fallen at various points of Randall county during the past week.

Rain in Canyon so far this month has measured 2.43 inches, with a total of 8.67 inches during the year. During June, 1953, no moisture fell, and the total for the year measured only 4.63 up to the end of June.

Hail has hit practically all parts of Randall county during the growing season. The drought of the early part of the season cut much of the wheat crop very greatly.

It is reported that a fungus growth has damaged some of the wheat. This has been brought on by continued heavy rains in many parts of the Panhandle. So far little fungus has been discovered in this area, but grain buyers are warned to be cautious in buying infected wheat. According to reports, five carloads of infected grain were received and rejected in Lubbock during the past week. Buffalo Lake lacked only two feet of being filled and running over the spillway. It has been a long while since citizens have witnessed the sight of the Lake running over the spillway.

## Louis Hinders Herd Is Tops

The herd of Holsteins of Louis Hinders topped milk and butterfat production among the breeders of the three county districts competing in production.

The Hinders herd produced 1180 pounds of milk; 3.7 percent of butterfat, with 43 lbs.

The Hazlewood Farms were third.

Among the ten high cows, Luke Miller was first; Richmond Hales third; Louis Hinders fourth; Neil Downing, seventh.

Hinders, Downing, Richmond Hales, Hazlewood Farms, all stood high in all kinds of competition.

## Jo Ann Mickey Is Given Scholarship

Miss Jo Ann Mickey, 1954 graduate of Canyon High School, has been awarded a scholarship for the 1954-55 session to attend West Texas State College, according to Dr. Walter H. Juniper, dean of the college.

The scholarship, along with several others recently established at WTSC, is granted on a competitive basis and on scholastic achievement and merit. Dr. Juniper said. The scholarship pays tuition and fees for one year.

Daughter of Mr. and Mrs. John E. Mickey, 611 4th, Miss Mickey plans to major in English and music at West Texas State. She has also won many awards including first place in a district essay contest, third place in a regional essay contest, first place in a polio essay contest, two English awards and four first place awards in band solos and ensembles.

She was Halloween queen candidate, band queen, co-captain of the basketball team, member of the tennis team, secretary and treasurer of the band, member of the Science Club, National Honor Society, FHA, and participated in the junior and senior plays.

## Gene Hill Attends Youth Caravan

Eugene Hill, Canyon senior at West Texas State, will attend a Methodist Youth Caravan Training Center at Oklahoma City University June 15-25.

He will become a member of a college youth team, accompanied by a counselor, who will be assigned to work in six churches over a six-week period, assisting with the organization and planning of a church youth program. Oklahoma City is one of four cities in the nation designated as training centers for the caravans. About 50 teams will work throughout the nation this summer.

### CANDIDATE RALLY

Centerville Home Demonstration Club will have a candidate rally at the Fairview school house Saturday evening, June 19, at 8:30 p. m.

## C-C Needs Bring-Em-Back-Alive Talent in Hunter

Some wily hunter who can trap four, or four hunters who can trap one each, ground squirrels are sought by the Chamber of Commerce. The Chamber wants the animals to supply as pets. They are in answer to a request from Judson Scott, Jr., of Mansfield, La. Here is the letter Scott wrote Mayor Hosea Foster.

"Last summer I visited your beautiful and interesting city. There were numerous ground squirrel around especially along the road to Canyon. I had one for a pet for a long time and it finally died. If you would send me two or three small ones, I will pay postage and continue to boast your fine country.

"Possibly if your office cannot handle this, the Chamber of Commerce might be able to help."

After receiving the letter, Mayor Foster turned it over to the Chamber of Commerce. Although the letter was received in May, the Chamber has had no luck in obtaining the ground squirrels until now and they hope to do so in the near future.

If you have any talent for hunting and trapping, get in touch with the Chamber of Commerce. They need you.

## Happy Voters Approved Bonds

Voters of the Happy school district approved the bond issue in the special election of Saturday. The vote was heavy on the side of the bond issue of \$250,000 which was necessary to take care of the increased scholastics of the district.

The bonds will draw interest at the rate of 2.83971%.

The trustees will call for bids for the construction of the building at an early date.

## Pastor Arrives at Episcopal Church

All Saints Episcopal Church will be served this summer by Lester Jones, who, with his family, has arrived in Canyon and taken up residence in the Little House of Fellowship.

Services will be conducted by Mr. Jones at 9 o'clock each Sunday morning, after which he will go to Hereford to conduct worship at 11. Morning prayer each week day at 9 will be held at All Saints.

Mr. Jones is a student at the seminary in Alexandria, Va., to which he and Mrs. Jones and their children, Laura Leigh and Freddie, will return in the fall to continue his preparation for the ministry which he will complete in June, '55. Mr. Jones stated that he was much pleased when Bishop George H. Quarterman invited him to come to Canyon, and there was a possibility that he might return to Canyon for permanent residence as minister of All Saints.

It is anticipated that there will be many gatherings at the Little House during the next two and a half months.

### ANNUAL PICNIC

Canyon Mother-in-Law Club will hold its annual basket picnic at the home of G. W. Cox on June 24 at 6:30 p. m. Husbands of members are special guests. Members are urged to come bring their husbands and well-filled basket lunches.

## Postoffices To Be Decentralized

Congressman Walter Rogers announced Wednesday that under the decentralization program of the post office department, postmasters in 23 counties of the Panhandle will make certain reports to a district chief in Amarillo rather than report to Washington.

Randall county is one of the counties affected.

Postmaster Guy Harp of Canyon states that preparatory to the change, the government has requested that many old records be eliminated, and this is being done as rapidly as possible.

Texas will have six district managers, with the Regional Manager being located in Dallas as in the past. "This is intended to eliminate a major bottleneck in the postal service and to enable our own personnel to solve local problems at the local level. The result should be better service, greater economy and quicker solutions to problems," stated Mr. Rogers.

The Hoover Commission made this as one of its recommendations.

Mr. and Mrs. Roy Greer of Louisville, Ky., are visiting in the home of their daughter, Mrs. Dudley Moore.

## Work Starts Soon Remodel School Plant

Bids were opened by the school trustees Thursday night and the lowest of the nine bids submitted was accepted for remodeling the present high school plant.

Floyd Richards Construction Company was the low bidder of \$133,495. Four of the bids were within a few hundred dollars of each other, while the other bids ranged up to \$155,209.

Work of remodeling the present high school plant and converting it into a junior high school plant will start within two weeks. It will require five months to complete the job.

Supt. Joe A. Gibson states that this remodeling job and completion of the new ward school building in the Southeast part of Canyon will coincide in time. According to present plans, Mr. Gibson hopes to move the grades of the ward school to the new building soon, after Christmas.

Work on remodeling the high school building will not interfere with classes being conducted in the present building, according to Mr. Gibson.

A meeting between the school board and the city commission will be held soon to work out details for payment of paying to the new building.

"While we will not have sufficient money to build the ward school and remodel the high school plant from the \$550,000 bond issue, we have saved up a balance which will be sufficient to do the work which is contemplated," stated Mr. Gibson Friday morning.

## Summer Theatre First Performance At Branding Iron

First production of the Summer Theatre at West Texas State College, a British comedy, "Yes and No," opened last night at the Branding Iron Theatre, and will be presented again tonight and Thursday night at 8 o'clock by the Palo Duro Players.

Directed by Jennings H. Flathers, Amarillo High School teacher, "Yes and No" purports to relate what might occur when the alternative answers to a proposal of marriage are given, and in a story-winding up epilogue, shows what really happens. Flathers promises a "surprise ending" to the amusing tale.

Three veteran players of Summer Theatre, now in its sixth season at WT, team up with four newcomers in the first Flathers directed production. L. R. Reeves, Mobeetie, and Barbara Galtner, Amarillo, appear as the Rev. and Mrs. Jarrow; and Avert Smith, Amarillo, is cast as Adrian Marsh, the man who proposes.

Amarillo girls making initial appearances on the BIT stage, Pat Martin and Sandra Hartman, are Jo and Sally Jarrow, the girl who receives the proposal and her sister who aids and abets the cause. Claude Fuller, Amarillo graduate student, as the Rev. Mr. Bagshot, assistant to the rector, Jarrow, gets into the marriage picture, and Al Gene Pepper, Plainville, as the cleaning woman, Mrs. Webb, sweeps in and out.

Story of the play begins when young Adrian Marsh, whom the Jarrows met at Torquay, a beach resort, comes to visit the family in Somerset before "going out to Persia in the oil business." His proposal of marriage to Jo starts action, and in the first act, the answer is yes; the second act is devoted to the negative reply; and the epilogue shows what happens.

Air conditioning this summer will add to the comfort of BIT patrons. Admission will be 50 and 75 cents, and tickets may be bought at the speech building or at the door.

### MARRIAGE LICENSES

Wilma Loyde Hollowell to Mary Jeanice Eppler, June 5.

Billy Ray Hand to Evalyne Gwen Wilson, June 6.

Roscoe Tom Hunter to Miss Betty Ann Coleman, June 9.

Mrs. C. H. Stratton leaves Thursday for Bartlesville, Okla., where she will spend three weeks in the home of her son and his wife, Mr. and Mrs. Charles Stratton. Mr. Stratton is recuperating from a bronchial operation that he underwent in a Tulsa hospital.

Mrs. George B. Ritchie of Monterey, Calif., is expected today or tomorrow to visit in the home of her niece, Mrs. Houston Bright. Mrs. Ritchie will be recalled as the former Esther Rudolph, daughter of the pioneer newspaper publisher of the Panhandle.

## Noah Amason Gets First Load of Wheat

Noah Amason brought in the first load of wheat to Canyon Saturday afternoon.

The wheat tested 54, with 13.88% moisture.

The Farmers Elevator Co. gave Amason a \$25 Stetson hat as a reward for the first load of wheat brought to the Canyon market from the 1954 crop. There were 125 bushels of wheat in the load. Due to the rains of the past week, it is very unlikely that additional wheat will be harvested early this week.

## 4-H Club Boys And Girls Hold State Meeting

Randall County 4-H Club members made a good showing at the State 4-H Round-Up and contests at A. and M. College last week. Four boys and five girls from this county participated in this statewide annual event.

Before 4-H club members can compete in the state contests they must first win the right to represent a county. County winners then compete for district honors. There are 22 counties in Extension District No. One, the home district for Randall County club members. One team from each of the 12 districts then compete in the state contests.

Charles Conatser and Jimmy Hales were district winners in crops judging. They placed fourth in Texas at the state contests. These club boys judged classes of oats, cottonseed, maize, prairie hay and alfalfa hay. They also gave a 15 minute demonstration on seed treatment.

George and Don Kuehler were the district winners in the farm and home electric contest. At the state contests they were the fifth place team in the state.

Alby Ann Kuchler won fourth in the individual Dairy Foods Demonstration contest. She prepared a complete breakfast using "Eggs a la Goldenrod" as the food prepared with dairy products.

The team of four girls who represented the district in shrub identification brought home three white ribbons and one blue ribbon. They took a written test to identify 40 shrubs, to classify them as to evergreen or deciduous, and to give two uses of each in the landscape. Mary Janssen of UMBarger won the blue ribbon for a score of 90 or above, and the other girls won white ribbons; they were Betty Hoffman, Bernice Grabber, and Barbara New. All are members of the county wide La Golondrina 4-H club.

These club members, together with 1600 other club members and leaders from all parts of Texas, participated in the Round-Up and contests. They left Canyon on Sunday, June 6, and returned on Saturday, June 12. Randall County Home Demonstration Agent, Miss Lou Ella Patterson, and County Agent, John Brazzil, made the trip with the club members.

## Hospital News

Births

A daughter was born to Mr. and Mrs. D. Jobe of Happy on June 9. Mr. and Mrs. Curtis Monk of Happy are the parents of a son born on June 14.

A son was born to Mr. and Mrs. W. H. Kitchens on June 15.

A daughter was born to Mr. and Mrs. Bill Knighton on June 16.

Mr. and Mrs. Joe Frank and family have returned from a three weeks vacation visiting with relatives in Phoenix, Ariz., Los Angeles, and San Diego, California.

LeMay says the U. S. has "instant" atomic striking force.

## CinemaScope Coming To Canyon

The Varsity Theatre is now equipped to show CinemaScope pictures. The picture on your top left shows the old stage which had the small screen behind curtain. The top picture on your right shows the wide CinemaScope screen which has recently been installed. The picture at the bottom shows the old lens on your left and the CinemaScope lens on your right. This equipment will enable Canyon to have the finest pictures available and will be one of the smallest towns to be equipped for this medium.

The first picture to be shown in CinemaScope will come to the Varsity June 17-18-19 which is THE COMMAND. THE ROBE and other top CinemaScope pictures will be shown at the Varsity. Due to the filming of pictures in this new medium and the manufacturing of new equipment has slowed down the release of the top pictures and there has not been enough pictures for normal operation. The Olympic has been closed and necessary repairs, remodeling, and installation of new equipment will take place during the summer and with more top pictures available it is expected that the Olympic will be reopened in the next few months.

## CROP Will Seek Food For Europe

The Randall County Christian Rural Overseas Program's newly-elected executive committee will meet soon to map a campaign for getting 15 head of cattle and a carload of wheat before July 16.

Truett Hull, Jr., new chairman of CROP, said the group pledged the cattle and wheat at a meeting Thursday. The cattle will go to Greece, he said, where the need for meat is urgent since the recent devastating earthquake.

Cattle donated to the program will be sent to Amarillo for shipment to Fort Worth. In Fort Worth they will be processed and sent to Houston. A ship will leave Houston July 30 to take the beef to Greece, Hull said.

Truett McGregor, retiring county chairman, is vice-chairman for the coming campaign. Harry Hungegate also is a vice-chairman; Jack Jennings is secretary, and Levi Cole, treasurer.

Representatives of churches and civic organization met with the CROP officers Thursday. Hull explained to the group that the federal government has allocated a billion dollars worth of surplus farm products for distribution by CROP overseas. For every dollar raised for foods other than beef, the federal government gives \$20, Hull said.

Hull said that makes it possible for every individual, not farmers alone, to help in the relief program. Ranchers and farmers may give the actual foods, but non-farmers may give money to buy food.

Mr. Hull states that when Randall County turns in one car load of new wheat, the government will turn over to CROP 20 car loads of surplus wheat to be distributed among the needy persons of Greece and other European nations.

## W. T. Senior Gets Paper's Award

Miss Bennie Earle DuVall, Lakeview, has been awarded the Wall Street Journal Student Achievement Award as the outstanding business administration student of the 1953-54 session at West Texas State College, according to Dr. Lee Johnson, chairman of the School of Business and Public Administration.

The award, including a bronze medal and \$20, is given annually by the business paper. Students are selected for scholarship, participation in extra-curricular activities and merit. Dr. Johnson said.

A May graduate of WT, Miss DuVall was named at the annual Senior Day program as the outstanding senior woman of WT. She was a member of Alpha Chi, national honor society, and was president of Phi Gamma Nu, national business sorority. She was one of 28 West Texans named to represent the college in the 1954 edition of "Who's Who Among Students in American Colleges and Universities."

Daughter of Mr. and Mrs. H. J. DuVall of Lakeview, Miss DuVall is working for Shamrock Oil and Gas Company in Amarillo.

All kinds of fire-works on Hereford highway across from Canyon Drive-In. 1013

## Palo Duro Park Is Featured in Mag Article

"Your Car" published a feature article in its July issue on the Palo Duro State Park, 12 miles east of Canyon. The story was written by Pollyanna B. Hughes, who has furnished several illustrated articles to national magazines.

This magazine is in its first year of publication, this being No. 6. Mrs. Hughes writes on the subject, "Surprise Canyon in Texas."

Only two copies of the magazine could be secured in Canyon and these were quickly bought by D. C. Greer, who operates the miniature train in the Park.

## Microfilm Deal Made With Two Local Abstractors

A deal was closed Monday between Randall county and A. B. Holt and A. B. Duncan, local abstractors, for microfilming records of Randall county.

The county has been considering for several months the job of making a permanent record so that in case of fire the records of Randall county will be safe.

Mr. Holt and Mr. Duncan have been figuring for several months with a firm which furnishes materials and rents machines to do the work. They have visited other abstract plants which furnish this service.

"We have no idea of making money on the deal, as a matter of fact, it will probably cost us money, but Randall county needs this service, and we are the only persons in Canyon capable of giving the service. Besides this, we are very desirous of having films available for our own business," stated both of the abstractors Tuesday.

## Radio Quartet To Sing June 29

The Karamu Quartet, concert singers known for their weekly CBS radio broadcasts since 1951, will present a program June 29 at West Texas State College, according to President James P. Cornette. The public is invited, and there will be no admission charge. Dr. Cornette said.

Organized in 1941, the Karamu Quartet has been featured on convention programs of such organizations as the National Association of Settlement Houses, the National Federation of Republican Women's Clubs, the Triennial Convention of YMCA Secretaries of the U.S.A. and Canada, and the Baptist World Alliance.

One of the high spots of the quartet's career was the invitation from the CBS radio network in 1951 to give a series of broadcasts. The series has been uninterrupted ever since, and radio fans from 34 states and Ontario have written approval of the quality of the quartet's performance, the unique blending of voices, and the choice of selections.

Members of the quartet are Charles W. Tomlin, first tenor, a member of the original Wings Over Jordan Singers; William A. Baker, second tenor; Roy J. Lockett, baritone; and Joseph L. Boatner, bass. Composer, arranger, and accompanist for the group is J. Harold Brown, formerly director of music at Florida A & M, Southern University, and Cleveland's Karamu House.

## City Holds Open House at Water Plant Thursday

Open house of Canyon's new \$250,000 water system was conducted Thursday and according to City Secretary Dudley Bayne a large number of local citizens took advantage of the opportunity. Water engineers from the surrounding area were present for the occasion.

Mayor Hosea Foster welcomed the group with a brief speech at the water plant Thursday at 1 o'clock. That evening at 7 o'clock members of the Panhandle Waterworks Association visited the plant. In addition to Mayor Foster, Commissioners Paul Lindsey and Bob Bellah were present and City Secretary Dudley Bayne to give an official greeting to the visitors.

Visitors saw improvements consisting of a new brick building, two new pumps and an underground storage system. Bayne gave an explanatory talk on the improvements. He explained that Canyon's water system now holds a total of 3,500,000 gallons. He pointed out that if additional expansion of the system is needed it can be taken care of with a minimum of expense.

Those who visited the plant were furnished transportation to and from the plant. They were also shown the new automatic chlorinator which provides chlorine for the water. The 24-hour recorder of the new pumps was another new part of the system shown visitors. One of the pumps is a 1,500 gallon per minute pump powered by a gasoline engine. It can also be used as an emergency in case the electric power fails.

It was explained that the present system should be adequate for the city's needs for the next six years. So far this year the greatest water consumption for any 24-hour period is 1,330,000 gallons. The high for any 24-hour period last year was 1,788,000 gallons. Recorded rainfall last year was 17.05 inches while the year's water consumption was 249,446,000 gallons.

The new wells produce water at the rate of 600 gallons per minute. This 1,200 gallons per minute added to the former wells gives the system a total of 2,500 gallons per minute when all the pumps are operating.

## Jail Repairs For Radio Work

Repairs are being started on the County Jail in order to provide room for the radio station which has been bought by Randall County.

The front of the building is being remodeled, with a face lifting job, states Judge Roy Joe Stevens.

The cages are also being remodeled so that juvenile or women prisoners may be kept in the jail away from the adult male prisoners.

### SISTER IS DEAD

Mrs. L. S. Johnston was called to Sweetwater Saturday by the death of her sister, Mrs. H. H. Knox, who had recently undergone a serious operation.

Sheriff Johnston was returning from Huntsville when he heard the news which brought him home to take Mrs. Johnston for the funeral.

## EDITORIAL COMMENTS

## Senator Price Daniel Displays Ability on Separate Schools

Many readers will recall that Wes Izzard highly praised the speech of Senator Price Daniel on the question of separate schools for the Negroes.

While this speech in no way referred to Randall county, since we are without Negroes in any level of our schools, we read his manuscript with a great deal of interest.

The decision of the Supreme Court was wrong, according to the opinion of Texas' Junior Senator, but he advocated that instead of getting fighting mad about the question, that Texas as a whole consider the question seriously and to separate the wheat from the chaff, so to speak.

Senator Daniel is noted for his close analysis of any subject that he undertakes to study. He goes into the problem carefully and with a legal mind.

The separation of the White and Negro school children did not start in the South, but in Massachusetts, so the record shows.

Fifty-six cases have been appealed to the Supreme Court in years past in all cases the Negro was whipped in his attempt to secure the right to attend public schools with the Whites. These cases came from 26 states of the union, only 17 of which were Southern States.

The careful analysis of the problem was highly praised by many Senators from both the North and the South; from both Republicans and Democrats alike.

Senator Daniel is a real Freshman in the United States Senate, but when he has a speech to make, members know that he has carefully prepared for the occasion.

If you wish to read his speech in whole, come by The Canyon News office and ask to see a copy.

You will feel proud of Senator Daniel.

## The Role of Teacher Outlined by An Authority Upon Problems

The Texas Outlook, publication of the teachers of Texas, has the following thoughtful and dignified editorial:

"Tis education forms the common mind:

"Just as the twig is bent the tree's inclined."

A familiar quotation, to be sure, but one which has never lost any of its lustre in the telling.

Consider the make-up of a typical suburban community of 10,000 population:

There will be 2000 to 2500 children enrolled in public schools,

75 to 100 engaged in the teaching profession;

12 to 15 judges and lawyers;

12 to 15 physicians;

10 clergymen;

6 dentists.

A typical citizen goes through life:

(1) without ever meeting a judge in his official capacity;

(2) consulting a lawyer only a few times—

(3) seeing his dentist usually less than twice a year as commonly advised;

(4) probably consulting a physician no more.

Less than half of the population will find themselves under the direct influence of a clergyman for more than a casual relationship on Sundays. The other half will meet the clergy only on occasions of weddings, baptisms, and funerals.

BUT almost all of these citizens, for one-fifth of their lives, spend five days a week for 36 to 40 weeks each year under the direct influence of teachers.

This challenging thought should constantly be before us as we go about our business of teaching.

It should also be in the mind of a public which should tolerate nothing but the very best for its children. And its importance should be kept in mind when the question is asked: "What can we do to get the most qualified young people interested in teaching?"

## Confusion Exists in Washington But Congress Continues Working

After listening to some of the brawl that comes out of the Army vs. McCarthy fight in Washington, we were inclined to think that all of the work was being done by this one committee.

Fortunately for the people, this is not the case. Congress is going on as usual.

Wonder what would happen to the hearing if all radios, televisions, newspapers would suddenly decide to discontinue giving so much time and space to this fracas?

What would happen to McCarthy if all of these vehicles of information would refuse to carry his name under all circumstance?

There is a cure for all such abuses, and silence is the best cure!

## George Parr and His Clan May Get the Axe in Duval County

George Parr was indicted. He must stand trial for murder.

A lot of Canyon folks have been watching with interest the antics of the Parr family in Duval county. Perhaps this time the law is on the trail of a real criminal.

Who knows? Time alone will bring out the facts in court, so we are not going to worry about the fate of George Parr. Whatever he gets will likely be a small payment for his crime against the State of Texas and society as a whole.

## Vague Answers Are Produced by New Racket From Washington

Some guy has started a new racket in Washington. That is, the idea may be new, but the method is as old as time; or at least as old as the printing press.

This fellow uses the catching phrase, "Human Events." In his weekly letter he devotes four letter size pages to the discussion of just one problem. He pretends to know all of the answers.

His stuff may be worth reading, but we have long ago found that few men have the ability to know the answers to all problems. At least, we know one thing for sure; the older we get the less we know for sure.

This guy offers his bunch of trash for sale at the price of six copies for a dollar. Or just \$25 for 1,000 copies!

## Stevenson Manager Campaign Of Opponent of Lyndon Johnson

Coke Stevenson, former candidate for U. S. Senator from Texas and former Governor, has accepted the post of manager of the Dudley Dougherty campaign against the re-election of Senator Lyndon Johnson. In the red hot campaign of 1948, Johnson defeated Stevenson by only 87 votes. The Johnson majority came from Duval county.

In this campaign we were in the Coke Stevenson corner, simply because we considered him the best man in the race.

In the present campaign we shall support Senator Johnson. He is no heavyweight, but he is young, aggressive and a fighter. His job as Minority Leader of the Senate does not make him the indispensable man, according to our humble opinion, since practically all Democratic leaders turned the job down before Lyndon Johnson was elected.

Coke Stevenson says that he is not accepting the management of the Dougherty campaign out of spite against Johnson, but we are inclined to believe that this is a greater force than anything else. Coke's man may be a strong candidate, but he has yet to show his strength.

## Ralph Yarborough Takes Radio To Discuss Governor Shivers

We listened with a great deal of interest to the first radio broadcast of Ralph Yarborough, candidate for Governor. The candidate is a good politician, but lacks a lot of being a statesman.

He announced that he had something to offer besides personalities and that he would not discuss the personalities of his opponent Governor Allan Shivers. Yet, he devoted most of his time to the discussion of the demerits of the Governor, as he sees them, and paid very little attention to his own strength.

The meanest thing that he could say was that Allan Shivers was a Republican because he refused to vote the Democratic ticket straight in 1952. He overlooked the fact entirely that had Governor Stevenson been elected he would have vetoed the tidelands bill, and therefore leaving Texas holding the bag for millions of dollars which the federal government was trying to steal from the school children of Texas.

So far as we are personally concerned, Mr. Yarborough can go ahead and run three times more for Governor. He has been defeated twice, and three times should be enough for any person to run.

## Regulation of Oil in Texas Is Step Toward Federalization

General Ernest Thompson did not know when he spoke in Canyon last month that the federal government was just about ready to take the oil business away from the states. He would have been more critical of the infringement had he known what was going on.

It seems that the facts are that few states outside of Texas are doing a very good job of regulating the oil business. General Thompson first took public office when conservation was something new and practically unheard of. The fact that he has stayed in office for such a long time speaks highly of his ability to handle conservation problems.

We shall see what happens to the oil business when the federal government takes over, as it will!

Some politician will be assigned to the job; and therefore most anything may happen.

We shall see what we shall see.

## Only Fair Play Is Expected in Army-McCarthy Row in Capital

You will recall that Senator McCarthy stated positively several days ago that under no circumstance would he divulge the names of his informants to communists in the government. He claims that is his right, and Chairman Mundt upheld him in the statement.

You will also recall that McCarthy hit the ceiling when the President issued an order forbidding government employees from giving out information.

This all adds up to the point that there is only one honest and capable man in the American government—McCarthy.

All of the rest of us are commies.

How do you like the brand that Joe places upon you?

If you can stand a shock, look up your budget records for 1939 and note the difference in the cost of living. That was just fifteen years ago.

Every business should do some advertising and spend its advertising money wisely and carefully. In the way it will do some good.

It is always a little surprising to see Congress make the same mistake every ten or twenty years; most people repeat theirs oftener.

Americans should stay out of the partisan causes of their home countries if they cannot keep the interests of this country paramount.

Who can remember when Americans longed for the day the Japanese would leave China so that China could enjoy peace?

A free meal — if a good one — is still a great attraction for politicians, loafers, flies and a number of other insects.

The Pearly Gates are being oiled up about now for the annual crop of vacation motorists.

Operating a church takes money, just like everything else, which you might keep in mind.

Travel is educational; it teaches appreciation of the home, among other things.

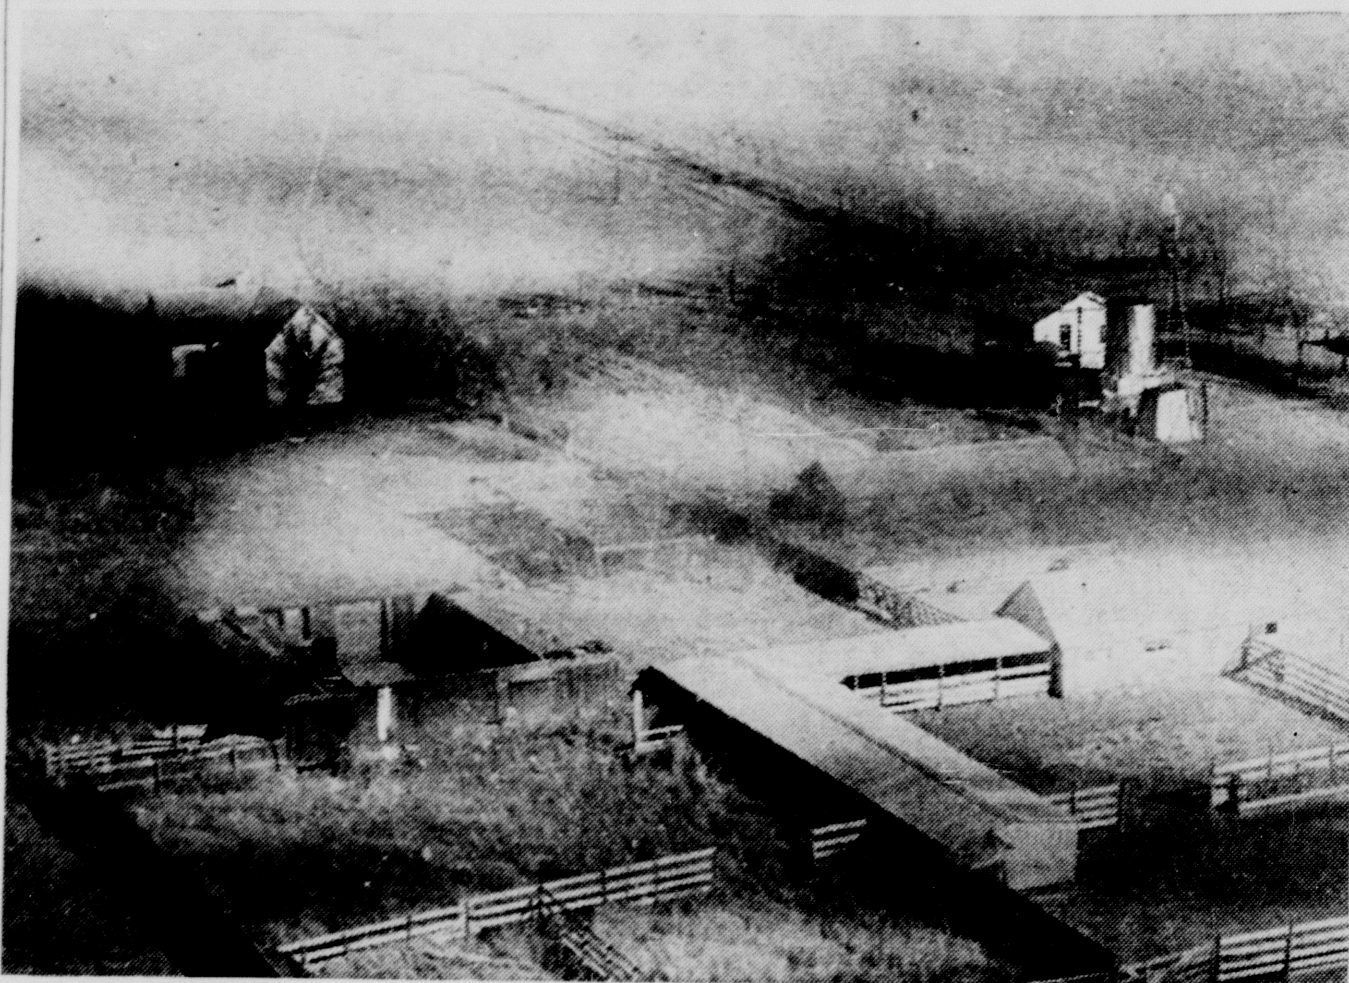

Sincerity is a great virtue, rarely exhibited and seldom appreciated.

Few people will argue with you when you're telling them how smart they are.

We wonder where the isolationist sentiment of the thirties has gone.

It is usually a mistake to pay in advance for a job.

## Who Is Owner of Week's Mystery Farm?

The above is picture No. 48 of the Mystery Farms of Randall County. To whom does this farm belong? The owner may secure a free print of the above picture by calling at The Canyon News office at once and identifying the picture. The picture was taken from the air by the Aerial Farm Photo Service of the Zekan-Robbins Co. of Harlan, Iowa, who has taken pictures throughout this area.

## ALMOST WORTH IT

A man managed to board a street car the other day after a hot chase. On regaining his breath he said jokingly to the conductor, "Suppose I'd slipped and lost a leg—what then?"

"Oh," answered the conductor, with unwonted politeness, "you wouldn't have to do any more running then; we always stop for a man with a crutch."

Mary Martin, actress: "Nowadays, I'm careful what I wish for because it has a way of coming along, and sometime it isn't worth the price."

## GOLD IN MURALS

Harrisburg, Pa. — A decision to refurbish murals inside the home of Pennsylvania's State capitol brought to light hundreds of square feet of gold leaf trim accenting the pictures. Dust of nearly half a century had covered the gold.

## ONCE IS ENOUGH

Tiburon, Cal. — Ted Steiger, a real estate appraiser, hopes the old saying that "Lightning never strikes in the same place twice" is really true. A bolt of lightning struck his home, causing \$2,500 damage.

## SNATCH THIEF TAKES 75c

Baltimore, Md. — Two negro youths snatched the purse of Miss Carmela Longo, as she walked down a street. A short time later, police found the purse a few blocks away. Gone was a wallet which contained 75c. Intact at the bottom of the purse was \$25 in bills.

As long as I am rich reputed  
With solemn voice I am saluted,  
But wealth away once worn,  
Not one will say good morn. —  
English Rhyme

## APPARENTLY

Seaman Sam says: "Many girls find life a ticklish proposition."

## ABSENT-MINDED

Then there was the absent-minded yeoman who saluted the typewriter and punched the skipper.

RATES ARE LOWEST  
BETWEEN 6 P.M. AND  
4:30 A.M. ON WEEK-  
DAYS AND ALL DAY  
SUNDAY

You'll save money by making long distance calls nights or Sundays when rates are lowest. And your calls go through twice as fast if you call by number. Ask the telephone business office for a free long distance numbers booklet—a handy way to keep a list so you can call by number.

Keep a list and  
CALL BY NUMBER

## Various Reports From Washington During These Serious Times

WASHINGTON: The old question whether the United States should organize a foreign legion military force, for use overseas when necessary, is coming to the fore again. It is being discussed in high Army circles and among military experts generally.

The primary need such a force should fill would be the Army's requirements for manpower. The foreign legion would also be an economical move, since legionnaires would be paid only half what drafted Americans are paid for their first ten years of service.

Under the latest proposal, foreigners could sign up for a minimum term of five years. If at the end of that time they chose to re-enlist for another five years, they would become citizens, if they had a good record and character rating. At the end of the ten-year period they would also draw pay equal to that drawn by American draftees and volunteers.

A foreign legion force would enable this country to move its military strength around the world much more easily and without many of the restrictions now placed on draftees and volunteers by Congress. The legion force would be commanded by American officers and contain both American and foreign non-coms.

There is little doubt that there would be many volunteers for such a force. The best guess is that the United States would have an Asian and a European contingent, if the plan is adopted. Young men in every country in the world—many of whom could never become U. S. citizens otherwise—would jump at the chance to earn their citizenship by serving in the legion. The pay—only half the normal U. S. scale—would be at least equal to that now being received in most foreign military services.

One big objection is the ageless criticism that hiring foreigners to do this country's fighting is morally decadent. But if the country can better preserve peace and strengthen democracy in so doing, that objection may be nullified. Another objection is that such a system would bring into the country—as citizens—some of the world's toughest and most undesirable misfits.

If recruiting could be done in foreign countries on a semi-select basis, and in line—to some extent—with a quota system based on the immigration quota table, these objections might be met also.

President Eisenhower is winning a typical Eisenhower victory over Senator Joe McCarthy. As he won out such formidable party opponents as the former Bob Taft, Ike

is achieving victory through a quiet, dignified approach that sometimes dismays his supporters, but which gets surprising results in the end.

The President has always been slow to make emotional or snap statements. With McCarthy's latest challenge—appealing to executive department employees to disobey President Eisenhower and turn over secret papers to him—some thought Eisenhower would lose his patience and blister the Wisconsin Senator.

But the President stuck to the course he has steadily followed ever since McCarthy first challenged him. He doesn't mention McCarthy by name. He pitches his appeals to Americans on a high plane and he refrains from personal or emotional replies. That approach, judged over the long haul, is poison for an opponent and that is the treatment Ike is giving the Senator now—as always.

The steady weight of the President's popularity and his disapproval of McCarthy's tactics are having their effect. In every section of the country but one there is overwhelming evidence that McCarthy's popularity has shrunk significantly. Only in the Midwest and Southwest does he seem to retain much of his strength, and he has lost support even in these sections.

The proud French announcement that the stand made at Dien Bien Phu had prevented a Rebel concentration and offensive in the Red River Delta before the monsoons now turns out to be wishful thinking. On June 1st the French said they expected an attack in the delta by four Red divisions which took part in the Dien Bien Phu battle, before the middle of the month. The question now arises: What, then, was the purpose of the Dien Bien Phu sacrifice?

### SOCIAL SECURITY BILL

The House Ways and Means Committee members are busy studying the ins and outs of President Eisenhower's plan for a bigger social security program—which is considered a "must" item on the Congressional calendar. As now worded the bill—embracing President Eisenhower's proposals—would bring an estimated 10,500,000 persons not now covered, increase the wage base on which social security taxes are levied from \$3,600 to \$4,200, increase monthly benefit payments and ease present retirement requirements.

### WRONG QUESTION

Father—Now, son, tell me why I punished you?  
Son—That does it. First you pound the life out of me and now you don't know why you did it?

Wilson M. Compton, spokesman for the U. S. Chamber of Commerce: "The production of electric power from nuclear fission should be financed, developed and operated by private industry."

### A DELICATE HINT

A gentleman visited the house of an old friend, where the butler, an Irishman, paid him every attention and finally saw him into his motor. The gentleman, who was miserly, did not tip him. As a delicate reminder, the butler said:

"Faith, sorr, if you lose your purse on the way home, remember you didn't pull it out here."

### LITTLE TOO WELL

Walking through the woods, the artillery officer was surprised to see a number of men climbing trees and crawling through bushes. "What's the great idea?" he snapped. "What do you men think you are doing?"  
"Well, sir," said the sergeant, "we've camouflaged the gun so well that we can't find it."

### TECHNICAL AID

Point Four and other technical aid programs have reduced the danger of famine in many lands and diminished or eliminated the ravages of human and animal plagues, according to a recent U. N. report.

### TWITTING THE DEAD

Most of the cronies of old Abner, the sexton, lay in the churchyard. When scything the grass, he would often talk to them. "Now, lie still, Garge," he would say, "I be only a-goin to shave 'ee!"

### MAN'S TRUE FRIEND

That friend of male America—the one who discovered that cigar ashes are good for the rug—is dead with another. He finds that dead leaves benefit the lawn.

### WHERE?

A week or so after an active two-year-old and 200 pounds of sand are placed together in a sand-box, no one knows what becomes of the sand.

### NEED NO BICARB

Dumb animals are the ones that can satisfy their appetites without taking something to stop the misery.

Ethiopia seeks U. S. aid for coffee expansion.

## President Ready to Step Down; But Party Leaders Plan a Draft

By HARRY S. DENT  
Washington Correspondent

WASHINGTON: Will President Eisenhower run for another term in the White House in 1956?

This is the \$64 question currently being batted around in official circles in Washington. Most Republicans are hoping he will, while most Democrats are crossing their fingers in the hope he won't.

Political observers here speculate the President, with his great personal popularity, might pull the Republicans over the hump again in the 1956 elections—but this time not by the overwhelming majority of electoral votes he compiled in 1952. On the other hand, an Ike-less race, many think, could tilt the scales in favor of a return to power by the ousted Democrats.

This is the big Democratic hope. President Eisenhower has declared privately his intention to retire from the White House after his present term expires. On a recent visit to his Gettysburg, Pa., farm, he indicated he likes the calm surroundings there better than the hub-dub of the White House.

Among top Republicans who know of Ike's plan, there is strong belief he can be persuaded by world events in 1956 to stand for re-election. They remember he surrendered to a draft once before. This belief, however, is not shared by the President.

House Speaker Joseph Martin (R-Mass.) has predicted Eisenhower will run again and be re-elected. At their next meeting, the President offered to bet Martin he would not make the race. Their conversation ran something like this:

The President: I saw what you said about me running again. What will you bet on that?

Speaker Martin: I don't bet.

The President: I'll grant you are sincere and honest in your beliefs now, but conditions will change. By the next election world conditions will force you to be a candidate again, and you will be re-elected.

The President: Oh, no, I won't.

Should the President stick to his retirement plans, several prominent Republican hats would be immediately tossed into the political arena. The biggest might belong to Vice President Richard Nixon, the President's right-hand man in the administration, and Governor Thomas Dewey of New York, the man most responsible for putting Ike in the White House.

Other possibilities include Chief Justice Earl Warren (since the segregation decision), Senate Majority Leader William Knowland, and Senator Joe McCarthy.

One thing is certain in all the speculation. If the President wants to keep his job, the Republicans will see to it he gets the chance.

Terrace land—terrace land.

### INDIVIDUALITY

The greatest things are accomplished by individual men. —Spurgeon

Individuality is everywhere to be spared and respected as the root of everything good. —Jean Paul Richter

In obedience to the divine nature, man's individuality reflects the divine law and order of being. —Mary Baker Eddy

Every individual has a place to fill in the world, and is important in some respect, whether he chooses to be so or not. —Hawthorne

The worth of a state, in the long run, is the worth of the individuals composing it. —John Stuart Mill

An institution is the lengthened shadow of one man. —Emerson

Wilson M. Compton, spokesman for the U. S. Chamber of Commerce: "The production of electric power from nuclear fission should be financed, developed and operated by private industry."

Be proud of Canyon—Clean Up; Paint Up; Modernize!

### CITATION BY PUBLICATION

THE STATE OF TEXAS

TO: Purlyn Lewis Hodges, Defendant, Greeting:

YOU ARE HEREBY COMMANDED to appear before the Honorable District Court of Randall County at the Courthouse thereof, in Canyon, Texas, by filing a written answer at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 19th day of July, A. D. 1954, to Plaintiff's Petition filed in said court, on the 4th day of June, A. D. 1954, in this cause, numbered 2764 on the docket of said court and styled Erlene Marie Hodges, Plaintiff, vs. Purlyn Lewis Hodges, Defendant.

A brief statement of the nature of this suit is as follows, to-wit: Petition for divorce, custody of children, and Child support, alleging as grounds, mental cruelty, as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs.

Issued and given under my hand and the seal of said court at Canyon, Texas, this 4th day of June, A. D. 1954.

ATTEST: ETHEL MULLINS, Clerk, District Court Randall County, Texas

# New engine power! New operating economy!

## New Chevrolet Trucks...

do more work per day ... more work per dollar!

**You save hours on the road.** Thanks to greater acceleration and hill-climbing ability, you can save time without increasing your maximum road speeds.

**You save extra trips.** That's because of extra load space. New pickup bodies are deeper, new stake and platform bodies wider and longer.

**You save time on deliveries.** New truck Hydra-Matic transmission saves time and effort at every stop. Optional at extra cost on 1/2-, 3/4- and 1-ton models.

**You save on operating costs.** The "Thrifmaster 235" engine, the "Loadmaster 235," and the "Jobmaster 261"

(optional on 2-ton models at extra cost), deliver greater horsepower plus increased operating economy.

**You save with lower upkeep, too.** There are heavier axle shafts in two-ton models, bigger clutches in light- and heavy-duty models, stronger frames in all models.

**And your savings start the day you buy.** Chevrolet, you know, is America's lowest-priced line of trucks!

**Come in and see all the wonderful new things you get in America's number one truck.**

Now's the time to buy! Get our BIG DEAL! Save with a New Chevrolet!

# IMPERIAL CHEVROLET COMPANY

## Bride-Elect Is Honored With Parties

One of several lovely parties given to honor Miss Pam McDonald, bride-elect of James Thompson, was a miscellaneous bridal shower given Friday, June 4, in the home of Mrs. W. A. Miller. Hostesses with Mrs. Miller were Mesdames L. H. Owens, L. L. Byars, Glenn Dowlen, E. D. Walker, I. F. SoRelle, Otta Lee Elkins, D. K. McGhee, Dan Sanders, and T. H. Knighton.

Laid with a white satin damask cloth and crystal appointments, the serving table was enhanced by an unusual arrangement of blue delphinium and white asters.

Many beautiful flower arrangements were placed in charming surroundings throughout the lovely home.

Mrs. D. A. Shirley and Miss Ada V. Clark presided at the punch bowl. Guests served themselves to cookies, choice fruit from attractive fruit plate, and assorted sandwiches.

Mrs. Walton Byrd, Mrs. H. R. Fulton, Jr., and Mrs. Ples Harper played appropriate selections for a musical background for the evening.

Approximately 200 called during the tea hours and 50 others sent gifts but could not attend.

On Tuesday, June 8, Mrs. Ray Campbell and Mrs. C. L. Thompson honored Miss McDonald with a coffee in the home of Mrs. Thompson.

Mesdames T. H. Knighton and T. E. Knighton with Mrs. Dan Sanders were hostesses to members of the Friday Afternoon Bridge Club, Wednesday morning, June 9, to coffee in the home of Mrs. Sanders to honor Miss McDonald.

Members of the club were asked to bring their favorite recipe. These were presented to the honoree with a loose-leafed cookbook and a Kitchen Kapers cookbook.

Red roses centered the table from which pineapple puffs, brown sugar pecan macaroons, assorted sandwiches, salted nuts and coffee were served to Mesdames Jess Barker, Ray Campbell, Guy Harp, Wes Kleinschmidt, R. A. Neblett, C. L. Thompson, Clyde Warwick, the honoree, and hostess.

Mrs. McDonald, mother of the honoree, presided at the coffee service.

Mesdames Lee Foster and W. C. Black, the other two members of the club, were unable to attend.

Another courtesy extended Miss McDonald was a personal shower in the home of Mrs. H. R. Fulton, Jr., when a group of Gamma Phi sorority sisters of Pam was hostess to an informal Coke party on Thursday, June 10.

Hostesses with Thelma Fulton

were Joan Conner, Marion Byrd, Mary Lee Taylor, and Guavionna Simms.

Coke with an attractive assortment of party sandwiches and cookies were served from a table centered with an arrangement of blue and white daisies, Japanese parasols and fans which gave a cooling atmosphere to the real summer day.

## SUNNYHILL H. D. CLUB MEETS WITH MRS. E. W. MILLER

Sunnyhill Home Demonstration Club met in the E. W. Miller home on Thursday, June 10, with ten members present.

Meeting was called to order by Myra Nell Culp. Roll call was answered with "What I Like to Do When I Can Do What I Please."

Leona Henry was elected council delegate to replace Eula Hayes who resigned. Rosie Miller was elected the club's delegate to the state meeting.

Mary Jane Miller gave a demonstration on stew. The stew along with cake and iced tea was served to Gene Robinson, Rosie Miller, Leona Henry, Mrs. J. B. Knox, Sue Miller, Mary Williams, Mary Neal Henry, Myra Nell Culp, Maurine Allison, Jackie Miller, and the hostess, Mary Jane Miller.

## EDGETOWN H. D. CLUB PLANS JOINT MEETING WITH CENTRAL

Edgetown Home Demonstration Club met Friday, June 11, in the home of Margaret Harrison with 12 members present.

Opening exercise was a bean game. Roll call was answered with "What I do when I please." Mrs. Gentry gave the THDA report. Mrs. C. H. Stratton was elected delegate to state meeting from the club. After a discussion of the joint meeting with Central club the meeting was adjourned.

Refreshments were served to Polly Avert, Mrs. H. C. Gentry, Frances Hacker, Shirley Lehnick, Grace Knighton, Jennie Dora McAttee, Mary Jo Robinson, Joyce Taylor, Mable Taylor, Mrs. W. H. Sparks, Mrs. C. H. Stratton and a visitor, Mrs. Luther Jones, by the hostess.

The next meeting, June 25, will be the meeting with Central in the home of Mrs. H. C. Gentry.

## CANYON CITY REBEKAH LODGE HOLDS MEMORIAL SERVICE

Canyon City Rebekah Lodge 350 met on June 9 in the basement of the Methodist Church in a memorial service with Noble Grand, Mrs. Mae Bond, presiding.

Memorial services were given at the altar. Beautiful pink asters with green foliage, colors emblematic of the Order, were given by Mrs. P. L. Pitt.

Mrs. Pitt and Mrs. C. H. Stratton served ice cream and cookies at the refreshment hour. Next meeting will be Wednesday, June 23.

## MARY-MARTHA BIBLE CLASS MEETS WITH MRS. WILSON

Mrs. Bill Wilson was hostess to the Mary-Martha Adult Bible Class of the First Baptist Church for its June meeting.

During the business session it was decided for the remainder of the year that the class would have its monthly meeting the first Monday in the month. The family picnic was postponed until August in order that the members who would be in harvest in July would be able to attend.

Mrs. Tom Gooch gave a short talk on "Stewardship of Love and Happiness."

The social hour was spent in singing favorite hymns under the direction of Mrs. W. O. Nunley. Mrs. D. A. Brown and Mrs. H. B. Russell alternated as accompanist.

Refreshments were served to Mesdames Tom Seay, Marvin McBroom, Jim Upfold, Bill R. Lee, Tom W. Langston, J. D. Loudder, Dick Loudder, Joe Bailey, Gooch, Russell, Nunley, Brown, and the hostess.

## REFINISHING FURNITURE PALO DURO-RUSK TOPIC

Palo Duro-Rusk Home Demonstration Club held its regular meeting June 8 with Mrs. Edd Reynolds. Roll call was answered by "What I do when I do as I please."

Minutes were read and approved. Mrs. Charles Conatser gave the finance report. Mrs. Bert Northcutt gave the council report. Mrs. B. W. Dawson led opening exercises.

Program of "Refinishing New and Old Furniture" was presented by Mesdames Charles Wilkinson, Douglas Marshall, Clem Dugan, and Bert Northcutt. At the tea hour refreshments were served to Mrs. Carl Reynolds, guest, and ten members.

Next meeting will be with Mrs. Charles Reitz on June 22.

## DEN 2 CUB SCOUTS MEETS

Cub Scouts of Den 2 met at the home of their den mother, Mrs. E. W. Pettitt, this week. The meeting was opened with an archery contest. Bob Dreiss was the winner. Cubs then enjoyed a baseball game.

Refreshments were furnished by Mrs. L. H. Brotherton to James Boyd, Richie Brotherton, and Bob Dreiss.

Meeting was under the leadership of Eddie Pettitt who recently returned from Scout Camp Don Harrington. Eddie had neckerchief slides and many interesting stories to tell the Cubs.

## SOCIAL PIONEERS TO MEET

Social Pioneers Club will meet at 3 p. m. June 24 in the Club Room of the museum with Dr. J. A. Hill as principal speaker. All pioneers are cordially invited to attend. Anyone needing conveyance please phone Mrs. W. I. Wester.

Mr. and Mrs. John Lovejoy, Mr. and Mrs. Frank Lovejoy and children of Lindsey, Calif., Mrs. Harold Hargis and children of Tulare, Calif., are visiting Mrs. G. W. Harwood and other relatives. The Lovejoy men and Mrs. Harwood are brothers and sister. Mrs. Hargis is a daughter of Mrs. Harwood.

Mrs. L. M. Cousins left Thursday on the Chief for Cedar Grove, N. J., where she will spend the summer with her daughter and family, Mr. and Mrs. Phil Patterson, Janie and David.

Attending the Bonifield-Harvey wedding in Claude last Thursday night were Mr. and Mrs. A. B. Holt and Mr. and Mrs. George Blackwell of Canyon.

## Highway 60 Calvacade Arrives Here

Three men from Phoenix, Ariz., who are riding horseback to the September rodeo in Madison Square Garden, New York City, to prove that the day of the horse has not been entirely pushed out by the car, arrived in Canyon Tuesday night to stay until Thursday morning as guests of Canyon Chamber of Commerce.

Two of the riders, Loyd, Red, Davis and Bryce Waddell will enter roping and bull dogging in the world-famous rodeo in New York. The "mite" of the riders, 11-year-old Jerry Couch, is too young to enter the rodeo but is riding to represent his father who dreamed the Calvacade as an entertainment for Highway 60 but became ill and was unable to make the journey.

Mr. Couch is also represented by his daughter, Peggy, who had been elected Queen of the Calvacade but relinquished her crown to the runner-up Shirley Dahart when Peggy married Red Davis.

The group was ahead of schedule. They will leave Canyon Thursday at 8 a. m. and be there at 10th and Fillmore by a delegation from Amarillo Chamber of Commerce at 3 p. m. for entertainment in Amarillo Thursday night.

Six horses are being used by the visitors. Mrs. Davis drives the truck carrying the spare horses. Mrs. Waddell and her sister, Shirley Dahart, and other members of the party travel by cars carrying luggage and supplies.

John McLaughlin, another member of the party, is a famed rope spinner, spinning five ropes at one time, two from the horns of his saddle, one from his mouth, and one in either hand. He is also a trick rider and has a well educated roan horse that does amazing stunts and mathematical calculations.

## Boys Softball Well Underway

Canyon Boys Softball League is now well underway providing an excellent outlet for exercise and energy and good entertainment for the grown-ups.

Two teams that did not have managers last week are now in line with Calvin Morewood managing Taylor-Evans team and Glen Dorris with Sternberg Lumber Company team.

On Friday night Cooper's will be pitted against Sternberg and Taylor & Sons against Bellah's. June 21st schedule is Coopers vs. Taylor-Evans and Taylor & Sons vs. Foster Insurance.

Team Standings:

Team	W	L	Pct.
Foster Insurance	2	0	1.000
Cooper's	1	0	1.000
Taylor-Evans	1	1	.500
Sternberg	0	1	.000
Bellah's	0	1	.000
Taylor & Sons	0	1	.000

Come out to see the boys in action every Monday and Friday.

Terry and Johnny Cosner of Ft. Worth, Mr. and Mrs. Virgil Gore and son, Neal, of Charlottesville, Va., Mrs. Nilla Mae Haynie and twins of Houston, Mr. and Mrs. Dick Easton and Nilla Nicholas of San Antonio, Mr. and Mrs. Charlie Gore of Clovis, N. M., Mr. and Mrs. Wylie White of Hooker, Okla., Mrs. Dorothy Weddle and son of Amarillo spent last week with Mrs. L. L. Gore and grandson, Lynn Blewett.

Frank S. Gray with his daughter, Mrs. Clyde Dryden, his granddaughter, Mrs. Ruth Mates, and his great-granddaughter, Gwen Mates, of Corpus Cove are visiting this week with another daughter of Mr. Gray, Mrs. Verle Iverson. He and his party will go on to visit in Hobbs and Albuquerque, N. M., and in El Paso before returning home.

Don Standley has returned from Baton Rouge, La., where he was awarded a certificate for having attended the course offered to bankers by the University of Louisiana and the American Bankers Association.

Mrs. R. S. Rammage of Borger visited last week with her daughter and family, the Avert Lairs.

Miss Diane Prichard spent last week in El Paso visiting her brother, Lt.-Col. and Mrs. Hud Prichard and family.

All kinds of fire-works on Hereford highway across from Canyon Drive-In. 10/3

## CARD OF THANKS

We wish to express our sincere appreciation and gratitude to our friends and neighbors for their sympathy and each kind deed during the illness and death of our father and grandfather, T. H. Shipman.

Our special thanks to the staff of nurses and doctors at the Neblett Hospital who worked so faithfully and patiently. Thanks to those who sat with us by his bed, sent flowers, cards and food. Each deed and word will always be remembered. Mr. and Mrs. Ira Schriebe and family, Mr. and Mrs. H. H. Shipman and family, Charles Wesley, Charlene and Ronnie.

## Woody Pond Spoke Tuesday Before The Rotary Club

Woody Pond, game warden, spoke Tuesday at the luncheon of the Canyon Rotary Club on the Wild Life Conservation as promoted by his department.

Mr. Pond described the composition of his department, which is self-supporting through the sale of sand, shell, gravel, licenses and fines.

Until recently he had five counties, but now his territory has been cut to Randall, Swisher and Armstrong counties. There are 200 game wardens in Texas. These wardens serve on a definite salary basis, and are not dependent upon the number of arrests or convictions. All money collected goes into the State funds.

E. T. Dawson is head of the Educational program, and all schools are to be visited with the view of establishing courses of study on wild life.

Pictures and bulletins are available by writing to Mr. Dawson at Austin. The department publishes an attractive magazine with a \$1 subscription rate.

While Buffalo Lake is under Federal control, State laws are enforced by the game wardens. More than 14 tons of rough fish have been poisoned the past year at the lake. Carp, gold fish and chad are the principal fish killed.

When application is made for fish in ponds, the owners should see to it that all such rough fish have been killed or removed.

While the federal government regulates open seasons in the state, this is done upon the recommendation of sportsmen living in the areas.

Nearly every kind of bird passed through this section on its way to and from the north and the south. Some birds go as far south as South America and diseases may be carried in their flight north.

Visitors were: Roy Greer of Louisville, Ky.; T. E. Ward of Borger; O. D. Ferguson of Dalhart; Dale Price, Geo. M. Waddill, Roy C. Boger, Guy A. Carlander, John Oakes, all of Amarillo.

Retiring District Governor Herschel Coffee, Club President Frank Morgan and Grady Persons have returned from the Rotary International convention held in Seattle, Washington.

Mrs. Sidney Smith, nee Martha Nell Lang, of Tyler, and Mrs. Lemore Hill, nee Marion Hill, and son, Bill, of Borger were week-end guests of Dr. and Mrs. J. A. Hill. Martha Nell lived in the Hill home while she was attending West Texas State and the two girls were active in all college affairs.

Mrs. Lee Roy Moreland and son, Andy, are spending the week with her parents and his grandparents, Mr. and Mrs. Otis Houtt. Lee Roy will go over this week-end to bring them home.

Women who love to reform their husbands may be missing a chance to exercise these talents where they would do some good.

Not that husbands don't need reforming; or that many a wife couldn't re-make her man into something really noble — if he'd just do what she says. But the average attempt at husband-reforming is a washout. Unless a woman is a master psychologist, she ends up emphasizing the faults she would like so much to correct.

With children it's different. By fact and patience, children can be "handled" easily. They aren't yet set in their ways. They're open to suggestion, love Mom unquestioningly, and like to learn new things.

Hence the mother who lets tv script writers, actors in western movies, and comic book artists mold her child's entire philosophy of life is asleep at the switch. She needn't be a dog in the manger about these outside influences, of course. But unless she at least

competes for some of Johnnie's learning process, she's making a most peculiar mistake.

Because when Johnnie's half-grown, and the things he has spent his young life learning begin to show up in his attitudes and hobbies, Mama gets on the ball and lectures him about how shallow his interests are: "Don't you ever read anything worthwhile?" she asks. Or, "Can't you think of anything but cars?"

Are there interesting children's books around the house? Can Johnny learn from his elders how much fun it is to read and discuss? Are his questions about science, nature, people, answered fairly and thoughtfully, or is he "too young to know?" Is he laughed at for his questions? Summer is a good time for the mother who has been napping to try her hand at planting one new fact, one constructive idea a week in little Johnny's head.

Be A FRIEND OF THE LAND

Charles Lamb said that Samuel Coleridge was the most profuse talker he knew; all that Coleridge needed was a listener. His favorite attitude was to clutch the unlucky victim by a coat button, close his eyes the better to think, and talk and talk.

One morning (so Lamb related) as he was walking through a park, Coleridge nabbed him. While the poet held on to a button on Lamb's coat and talked, with closed eyes, the listener slowly drew his knife, cut the button loose and slipped away. Late that afternoon, going back through the park, Lamb heard a droning sound, investigated — and there stood Coleridge, holding on to that button, eyes closed, and still talking!

The horse and mule live twenty years

And nothing know of wines and beers.

The goat and sheep at twenty die

And never taste of Scotch and rye.

The cow drinks water by the ton

And at eighteen is almost done.

The dog at fifteen cashes in

Without the aid of rum and gin.

The cat in milk and water soaks

And then at twelve short years it croaks.

The modest, sober, bone-dry hen

Lays eggs for nogs, then dies at ten.

All animals are strictly dry;

They sinless live and sinless die.

But sinful, ginful, rum-soaked men

Survive for three score years and then;

And some of us, though mighty few,

Stay pickled till we're ninety-two.

—Author Unknown

## News In Canyon 25 Years Ago

(Taken from the files of The Canyon News of June 20, 1929)

The first load of wheat brought to Canyon was harvested by Albert Byars. It was bought by the McReynolds Grain Co. Dealers estimate that \$250,000 new farm machinery has been bought for this harvest. Hot weather is causing the wheat to ripen earlier than it should.

D. A. Shirley, registrar in W. T. left for Ann Arbor, Michigan, where he will do graduate work.

A petition is being circulated to pave the highway from Canyon to Happy.

Mr. and Mrs. Will S. Kerr and Judge C. T. Kerr, all formerly of Canyon, were injured west of Canyon when their car overturned.

Due to a new marriage law passed by the last session of the legislature, the license business was slow in Randall county states Earl Edwards, County Clerk.

Taxable property in Canyon reached \$2,326,179 for 1929 was the report of Harvey Cash, city tax assessor and collector.

Foot rot has affected about 5,500 acres of wheat in Randall county, according to W. H. Upchurch, county agent. Upchurch conferred with Dean Leidigh of Texas Tech who classified the disease.

### CANNY

The convivial husband had a friend to stay with him for the week-end. As the guest was being shown his room, he noticed faint crosses on several of the stair steps, and asked the reason.

"Ah," whispered the host, "these come into operation after midnight X means that the step creaks."

### FALLS 3 STORIES; UNHURT

Baltimore, Md. — Darlene Emerson, 2½, fell from a third-story window to a sidewalk in front of her home. Taken to a hospital, doctors could find only a few bruises.

"Woodman, spare that tree."

1. What does the name of the fifth book of the Old Testament mean?

2. Who was Postmaster General when Mr. Truman left the White House?

3. Who was Secretary of State when George Washington became President?

4. What was George Washington's wife's maiden name?

5. How many children did George Washington and his wife have?

6. Did Woodrow Wilson have any other name?

7. What does the S. stand for in former President Harry S. Truman's name?

8. When did the United Nations adopt an official flag?

9. Describe the U. N. flag.

10. What particular sweet is designated as "the only Nectar of the Gods?"

## The Answers . . .

1. The second law.

2. Jesse M. Donaldson.

3. Thomas Jefferson.

4. Martha Dandridge, who later became Mrs. Custis and was a widow when Washington married her.

5. None.

6. Yes; his baptismal name was Thomas Woodrow Wilson.

7. Mr. Truman uses the initial S. but has no middle name.

8. On October 20, 1947.

9. Light blue in color, emblazoned in white in its center is the United Nations symbol, a polar map of the world embraced by two olive branches.

10. Maple syrup.

### UNUSUAL TRADE

Bierut, Lebanon. — In a round-up of hoodlums, local police found one man who said he was employed regularly — making bandages to make healthy beggars look crippled.

There should be more teaching of land use and management.

### SONS LIKE FATHERS

Annapolis, Md. — It was recently pointed out that almost ten per cent of the graduating class of midshipmen at the Naval Academy are sons of present or former members of the armed forces. Eighty-five out of the class of 855 are sons of active, retired, reserve or deceased members of the country's military.

### A BOLD THIEF

Portland, Ore. — It was a bold thief who walked into the chambers of Municipal Judge John J. Murchison—in the center of the police station—and stole his inscribed pen desk set.

### ONCE DID

Michigan scientists are to engage in growing harder nuts for Northern climates. We once knew a hardy nut who insisted upon going without overshoes all winter.

Mary Pickford, screen actress of the Twenties: "Success is a whip to beat yourself with to become better."

Irrigation  
Engines  
STEVENSON PONTIAC

Now you can protect your car against both friction and acid—the two major causes of engine wear

NEW CONOCO  
Super MOTOR OIL  
America's First Double-Duty Oil!

### Protection 1

#### OIL-PLATING\*

conquers friction wear . . . because this exclusive discovery actually fastens a thin film of lubricant to moving engine parts for full-time protection.

### Protection 2

#### ACID-PROOFING

conquers corrosive wear . . . because this exclusive new discovery gives Conoco Super up to twice the cleansing power of other premium oils!

Automotive engineers have long known that friction and corrosion are the two major causes of engine wear. Now, from the laboratories of Continental Oil, comes America's first Double-Duty motor oil. It combines two exclusive discoveries (Oil-Plating and Acid-Proofing)\* to conquer both major causes of engine wear.

The unique Oil-Plating additive conquers friction wear by actually fastening a thin film of protective oil to engine parts. Unlike ordinary motor oil, this film won't drain down even when your engine has

been stopped overnight. Thus you get full-time protection against damaging wear due to friction.

Exclusive Acid-Proofing additive conquers corrosive wear three ways—it neutralizes acids, prevents rust, and gobbles up tiny particles of dust, dirt, and water and seals them safely in spheres of oil until the oil is drained. ACID-PROOFING actually gives new Conoco Super twice the cleansing power of other premium oils!

New Conoco Super Motor Oil is on sale at Conoco dealers everywhere. Drive in and ask for it today!

Your Conoco dealer will recommend the right grade of new Conoco Super Motor Oil for your car, your climate, your driving conditions.

Why GMC's  
make other trucks  
out of date

Be careful—drive safely

The GMC light-duty truck does more

because it has, as standard equipment, a full 125-horsepower engine—the most powerful 6 in its class.

The GMC light-duty truck saves more

because its Truck Hydra-Matic Drive\* ends repairs caused by shock-loading strains—ends all clutch costs—uses less gas—saves the tires.

The Hydra-Matic GMC light-duty truck performs better

because it always is in the correct gear for the need—regardless.

The Hydra-Matic GMC light-duty truck handles easier

because you never have to shove a clutch or shift a gear.

The GMC light-duty commands respect

with its dashing smartness—its look of quality—its spacious luxury cab, that make you and your wife proud to take it anywhere.

The GMC light-duty truck costs less to own—less to run—than old-style trucks. Come in and we'll demonstrate it!

\*Optional at extra cost

By VERN SANFORD  
Texas Press Association

AUSTIN: Texas is moving to clean up its insurance "mess."

A study of reform proposals has been scheduled by the Texas Legislative Council, with a special committee of legislators in charge of the project. Other state agencies will participate.

A. W. Worthing, executive director of the council, said that Lieutenant Governor Ben Ramsey has written to all insurance companies operating in Texas, asking for their cooperation in the study.

Sixty insurance companies have failed in Texas since 1939, Worthing said. The council will look at the records of these companies to see why they went bankrupt.

Another aspect of the council's work will be to examine Texas' insurance laws and recommend changes "to assure a sound and stable insurance industry."

#### Yarborough's Charges

Ralph W. Yarborough, candidate for governor, charged that there had been "influence peddling" in connection with the insurance situation. Yarborough recommended:

"A complete investigation looking into retainers, bank accounts, expense accounts, income tax returns, and excessive personal expenditures of state government officials connected with insurance law administration in Texas."

#### Insurance News

Nearly everybody got into the insurance show. These included: Attorney General John Ben Shepperd, who recommended 29 changes in the state insurance laws, including state control over insurance company stock sales.

Chairman Garland A. Smith of

A motor rewound here has its full rated horsepower — the work is superlatively done by specialists and is wholly guaranteed. Regardless of type, size, make — we can service your electric motors perfectly, economically.

**Wirt Electric**

the insurance commission, who denounced "blatant untruths and half-truths" in a Time Magazine article. Smith said the magazine was "joining with jealous big Eastern insurance companies in trying to smear the Texas insurance industry."

#### Good Business

Dr. John R. Stockton of the University of Texas Bureau of Business Research says that a trade decline is over and recovery has started.

Business activity rose two per cent from March to April in Texas, Dr. Stockton found, representing "a recovery of approximately half of the decline from January, 1953, and January, 1954."

This finding indicates, Dr. Stockton said, "that the decline in business, which has been under way since the spring of 1953, is approaching an end."

#### Lots of Roads

A construction program for 1955-1956, costing about \$211 million, was announced by the state highway commission.

It was the largest program ever approved in Texas.

Involved is the construction of 2,663 miles of roads, but, said commission chairman E. H. Thornton, Jr., "it can only eliminate a minor per cent of the critical deficiencies of the (highway) system."

About \$43 million of the money will go for highways within cities. Thirty of the worst bridges will be repaired or replaced.

#### Political Scene

State political campaigns opened up, with principal interest in the governor's race.

There, the contenders are incumbent Allan Shivers; Ralph Yarborough, Austin attorney, and J. J. Holmes, Austin contractor.

Yarborough opened up with a speech in which he talked about "the need for integrity in state government and a sound program for the advancement of Texas."

Meanwhile, Austin political observers heard reports from the Rio Grande Valley that national CIO leaders are going all-out in an attempt to defeat Shivers. These reports said that the CIO has put up \$250,000 to finance Yarborough and already has 300 paid workers in the field campaigning against Shivers.

Holmes, who is beginning to step up his pace in the race, says "I'm not mad at anybody. I just want to be Governor of Texas."

#### Shivers' Race

Shivers, returning from Korea, said that the thing for Texans to do is to keep our government at home, and not turn it over to outsiders.

At a press conference, the governor said he expected some opposition from Democrats who supported Adlai Stevenson last time. Shivers pointed out that he led the fight for Eisenhower because the Republican nominee saw eye-to-eye with him on the tidelands issue, whereas Stevenson thought the tidelands ought to belong to the federal government.

Since the return of the tidelands to Texas a year ago, Shivers said, this state has collected from them about \$32 million in mineral rights, and this money goes to the state school fund.

#### Lieutenant Governor

Opposing Ben Ramsey for lieutenant governor were State Representative George T. Hinson of Mineola and C. T. Johnson, Austin business man.

Hinson announced in favor of legislation which would require lobbyists to register with the state and force lawmakers to file a list of all the sources and the amount of their income.

Johnson plugged what he termed the need for "new men" to strengthen insurance laws for the protection of policyholders. Said Johnson: "It's interesting to see those who have been in a position for years and years to clean up the insurance mess suddenly get stirred up about it."

#### Brewster Starts

Campaigning for the re-election of Few Brewster, associate justice of the Texas Supreme Court, began with the appointment of Franklin Spears of San Antonio as campaign manager.

William B. Carssow, Austin lawyer, heads up a statewide campaign committee. Brewster is opposed by Robert B. Keenan of Gladewater and Alfred M. Scott of Austin.

#### Civil Appeals

I. N. Williams retired as associate justice of the Texas Court of Civil Appeals, and his place is being sought by Otto H. Atchley and Mat Davis.

Fourteen other judges on Texas civil appeals courts, up for re-election, are unopposed.

#### Executive Sessions

State executive committees of both the Democratic and Republican parties will meet here June 14 to prepare the July 24 first primary ballot and select sites for the September state conventions.

Republicans will choose a state chairman to succeed Alvin Lane, who resigned. George Sandlin of Austin has been chosen Democratic chairman, replacing Wallace Savage, who resigned to run for Congress.

#### Park Visitors

Four million people will visit Texas' parks this summer, says Gordon K. Shearer, executive director of the state parks board.

The number will be a record, biggest year heretofore having been 1952, when park visitors numbered 3,803,147. Various improvements have added to the attractiveness of the parks, Shearer said.

Texas big dairy industry opened up a 30-day campaign, whooping it up about how much dairy products mean to the state's people.

Included in the program were guided tours through model dairy farms, speeches, menus on the newspaper food pages, exhibits, and advertising.

#### Formula for Grads

Note to June graduates: Do you want to succeed? If so, you must love work.

So says L. L. (Tex) Colbert, president of Chrysler Corporation, who addressed 1,300 in graduation exercises at the University of Texas.

Himself a Texas graduate — in 1925 — Colbert said, "I believe that for most Americans there is a deep moral satisfaction in turning out a good job."

#### Duval Jury

In Duval County "the oppressed

may take new hope," said Attorney General John Ben Shepperd.

His comment was made upon the appointment of a new jury commission and grand jury panel in the violent South Texas domain.

#### Insurance Scandal

Looks like the big news this week will outshine the political spotlight. Scene of the drama: The 98th District Court room in Austin.

Stars in the show: Public relations Man John Van Cronkhite; Maurice Acers, executive assistant to Governor Shivers; Attorney General John Ben Shepperd; State Insurance Board Chairman Garland Smith; and Chief Insurance Examiner L. W. Blanchard.

The five were ordered to appear for the trial in connection with

the state's suit for a permanent injunction against the operation of Lloyd's of North America.

Fraud is the charge against Lloyd's of North America.

You can bet your bottom dollar that this case will echo and re-echo throughout the present political campaign.

#### WHAT, NO FIRE ENGINE?

Danbury, Conn. — The members of the local Fire Department recently extinguished a fire without the use of their fire engines. They carried buckets of water, brooms and hand pumps to the site and put out—a grass fire.

The U. S. lays full blame on the Soviet for the Korean war.

Better farms—better living.

# A Tribute to ... our Chamber of Commerce

The sincere men who aggressively promote the industrial advantages and potential profit possibilities of our city, comprise our most important, single group of citizens. They are the hard-working members of our Chamber of Commerce. On their shoulders falls the responsibility of attracting new factories and industries to our community, in order that more and more payrolls, families and homes will augment our already prosperous area. Indeed, we might say that the CHAMBER OF COMMERCE is the very life-blood of our daily lives, for their activities penetrate each business, large and small—bringing to all, the kind of help that benefits, directly or indirectly, every man, woman and child in our proud community. We salute the incomparable work of our Chamber of Commerce!

## FHA Restricts Loans Under Title I To Essential Home Construction

Federal Housing Administration has ruled that barbecue pits, swimming pools and other luxury items no longer are eligible for FHA home modernization and repair financing.

Acting Commissioner Norman P. Mason announced an initial list of 26 items which henceforth will be ineligible.

He said the FHA with its 75 field offices is instituting the new procedure to curb abuses of its Title I program.

In addition to luxury items, the list includes other items which, according to the ruling "do not substantially protect or improve the basic livability or utility of the property to be improved."

Other newly-banned items specifically include tennis courts, kennels, flower boxes, grading and landscaping, penthouses, photomurals, steam cleaning of exterior surfaces, stands, tree surgery, valance or cornice boards, greenhouses, venetian blinds, fire alarms or fire detecting devices, burglar alarms.

Lawn sprinkling systems, door opening and closing devices, fire extinguishers, radiator covers or

enclosures, burglary protection bars, dumbwaiters, outdoor fireplaces or hearths, airplane hangars, bathhouses and television antenna.

The new policy of the FHA to deny Title I home modernization and repair financing for the specified items is in accordance with recommendations which resulted from studies undertaken at Mr. Mason's direction.

The studies began shortly after Mr. Mason last April 13 accepted the appointment to head the FHA. Legislative and administrative recommendations, based upon the studies, were presented to the Congress on May 17 in compliance with the request of Senator Homer E. Capehart, chairman of the Senate Banking and Currency Committee.

"I am convinced," said Mr. Mason, "that vigorous administrative action is needed if we are to clean up the Title I program, and enhance its usefulness to the American public."

"Uncle Sam, unfortunately, has been underwriting the financing of items which lend themselves to selling abuses and which most certainly are not basic to livability of American homes."

Mr. Mason said it will be his policy to institute additional reforms. At the same time, he said that the basic purpose of the Title I program—to help home owners to modernize and repair their properties—must not be impaired.

### Fairview Breezes

It seems as if every time it rains in and around Fairview some one gets hail. Reports are from 25 per cent to total loss.

Mrs. Kate Folk is visiting her sister, Mrs. E. M. Wilson, and brother, Frank Rogers.

Mr. and Mrs. E. E. Wesley arrived Friday afternoon at the parental J. W. Wesley home after E. E. had spent the past four weeks in McBride Bone and Joint Hospital in Oklahoma City. He had undergone a rare nerve operation near his spine. He is much improved and went on to his home in Littlefield Sunday afternoon.

Susie Wesley, who had spent the past four weeks with her grandparents, accompanied her parents, the E. E. Wesleys home Sunday.

Nan Earley Shipman accompanied the Rainbow girls to the Grand Assembly at San Antonio.

Mr. and Mrs. J. D. Prosser and boys visited Mrs. Prosser's grandmother and her father, Mrs. M. F. Evans and S. A. Evans, Sunday.

Mrs. Allie Simon of Hobbs, N. M., is visiting her aunt, Mrs. M. F. Evans.

Mrs. E. M. Wilson and Mrs. Kate Folk visited Friday and Saturday with their brother, Priestly Rogers, who was hurt some time ago and is still in an Amarillo hospital.

Artie Pearson, who was critically injured some time ago, has been taken off the critical list.

Mr. and Mrs. H. H. Shipman and boys, Jerry and Jean, visited Sunday with his sister and family, the Ira Schribes.

Those visiting in the J. W. Wesley home Sunday were Mr. and Mrs. G. E. Wesley, Lavena Amer-son, Rev. and Mrs. Landtroop, Mr. and Mrs. Woodrow Wesley and J. A. Carr.

Richard Zachery visited Satur-

## New Books Added To County Library

Randall County Public Library Board held its regular meeting in the library on June 7, with Mrs. SoRelle presiding. Members present were Mesdames Levi Cole, Lon Fannin, Clay Cooper, Walter Graham, M. B. Measamer, and C. A. Pierle.

Three additional books were placed on the memorial shelf last month in memory of Mrs. Hazel Cleavinger: The Answers of Jesus to Job, and The Teachings of Christ by Morgan were presented by the Truax family. Mr. and Mrs. Cecil Bosley presented The Music of Life by Morgan.

The library has 2 old books that are sporting new covers due to an excellent re-binding job.

The following new books have recently been added to the library: Adult: Around the World in 1,000 Pictures, by Runyon; The Gipsy in the Parlour, by Sharp; One Man's Faith, by Hill; The Coriolis Affair, by Deasy; New Home Book of Best Loved Poems, by MacKenzie; Fantasy and Science, by Boucher; Lamps and Lampshade Making, by Palestrant.

Early Days in Texas, by Shanklin; The Crisis of the Christ, by Morgan; Great Chapters of the Bible, by Morgan; Installation Services, by Ely; Sunset Ceramics Book, by Sanders; The Spirit of St. Louis, by Lindbergh; Cress Delahanty, by West; Tomorrow, by Wylie.

The Epic of America, by Adams; Lt. Hornblower, by Forester; Second Tree from the Corner, by White; The Teaching of Christ, by Morgan; The Answers of Jesus to Job, by Morgan; The Parables and Metaphors of Our Lord, by Morgan.

Mystery of the Black Diamonds, by Whitney; The Twenty-five and Ann, by Urnston; and Now Miguel, by Krumboltz; Mike's House, by Sauer; The Courage of Sarah Noble, by Dalglish; Sea Pup, by Binns; Our Changing Weather, by Fenton; On Lennox Moor, by Kyle; and An Introduction to Trees, by Kieran.

Seventeen students who made all "A's" had compiled similar records the first semester. They are Elma Faye Bishop, Hereford; A. D. Britt, Estelline; Marilyn Cowan, Amarillo; Henry F. Eason, Wildorado; Norma Russell, Claude; Patricia Starr, Amarillo; and Robert E. Trimble, Amarillo.

Others having all "A's" this semester are Faye Dell Byrd,

Dalhart; Sam Colgate, Amarillo; James Cornette, Canyon; Theodore Falconer, Coos Bay, Oregon; Clarence Flanagan, Amarillo; Carolyn Jones, Hart; Eugene McGuire, Amarillo; Donald McMahan, Amarillo; Laura Lynn Smith, Canyon; Jon Ann Thomson, Muleshoe; Billy Wayne Waldrop, Breckenridge; and Dee Anne Wright, Fritch.

Also listed as honor roll students are Lavada Reed, Canyon; Mary Ann Hunter, Texline; Jim Russell, Canyon; Geneva Schaeffer, Canyon; William C. Garre, Amarillo; Andre Alexander, Canyon; DeWayne Cleveland, Friona; Betty Elliott, Amarillo; Margaret Foster, Canyon; Linda Hooper, Borger; Sheila Malone, Tulia; Billy Carl Morton, Canyon.

Gerald Porter Risley, Amarillo; Billmae Stephens, Amarillo; Ruth Hilbert, Amarillo; Alfred Louallier, Amarillo; Zell Rodgers, SoRelle, Clarendon; Tippi Stinson, Waco; Patti Tucker, Friona; Ernest Gene Wright, Amarillo; Bonnie Firestone Layman, Dalhart; Shirley Erwin, Claude; Letha Fedric, Stratford; James Clifton, Amarillo; Elleen McRae, Amarillo; Winfred Doyle Russell, Estelline; and James Morgan, Borger.

The Dallas Zachry family and J. L. Heafner are visiting with relatives and friends here while attending the Five State Soil Conservation program held in Amarillo.

Colonel and Mrs. Charles W. Mays of Austin visited briefly with Mr. and Mrs. Edwin Pettitt and their sons on Monday. They were enroute to Ft. Sill, Okla., after a trip to Salt Lake City.

Mr. and Mrs. H. J. Brandt of Holyoke, Colo., are visiting Mr. Brandt's sister, Mrs. A. K. Goodman.

Little boy, "Mummy, how long is it since Daddy died?"

Mother: "He didn't die, darling. He joined a golf club."

## Hale Center Girl To Study Abroad Toward Ph.D. Work

A West Texas State College graduate, Miss Francis Phillips, formerly of Hale Center, has been granted a Fulbright Scholarship for a year's study in England, friends among the WT faculty learned Monday.

Miss Phillips, who has completed work toward a doctorate in American history at the University of New Mexico, will leave this country Sept. 17 to study at Bedford College, University of London. She will work under Professor Dame Lillian Pinson. She plans to visit in Canyon before going to England.

After earning her B.A. in 1940 and her M.A. in history in 1946, Miss Phillips was supervisor of the campus high school at Nebraska State College in Wayne. She took a leave of absence from that college to work on her doctorate at New Mexico, where she held a graduate fellowship.

During the past year, she has been working in the National Archives in Washington, doing research in the letters and papers of J. W. Foster, grandfather of John Foster Dulles who served briefly as Secretary of State under

## Hale Center Girl To Study Abroad Toward Ph.D. Work

A West Texas State College graduate, Miss Francis Phillips, formerly of Hale Center, has been granted a Fulbright Scholarship for a year's study in England, friends among the WT faculty learned Monday.

Miss Phillips, who has completed work toward a doctorate in American history at the University of New Mexico, will leave this country Sept. 17 to study at Bedford College, University of London. She will work under Professor Dame Lillian Pinson. She plans to visit in Canyon before going to England.

After earning her B.A. in 1940 and her M.A. in history in 1946, Miss Phillips was supervisor of the campus high school at Nebraska State College in Wayne. She took a leave of absence from that college to work on her doctorate at New Mexico, where she held a graduate fellowship.

During the past year, she has been working in the National Archives in Washington, doing research in the letters and papers of J. W. Foster, grandfather of John Foster Dulles who served briefly as Secretary of State under

President Benjamin Harrison. The career diplomat took part in the settlement of the Bering Sea dispute in 1893 and the Alaska Boundary dispute in 1903. Miss Phillips' doctoral dissertation deals with Foster.

Chairman of her doctoral committee at New Mexico is Dr. George W. Smith. Miss Phillips expects to receive her degree when she returns from England. She is secretary for the university history department this summer.

Daughter of Mr. and Mrs. Clyde C. Phillips, Hale Center, Miss Phillips wrote on "The Development of Agriculture in the Panhandle-Plains Region of Texas to 1920" for her masters' thesis. High praise for her work at WT is given Miss Phillips by Dr. Ima Barlow, professor of history who was her thesis director. Miss Phillips was a member of Alpha Chi at WT. She also studied at Texas Tech, the University of Nebraska, and the University of Southern California.

Lt. Col. and Mrs. Hud Prichard and family are spending two weeks with their parents, Mr. and Mrs. Hud Prichard and Mr. and Mrs. Charles Harter.

Mr. and Mrs. Dee Garyn and Gerald Dee of Silverton spent Monday in the Jim Carter home.

## P. O. Boxes May Be Rented by Year

For the first time, post office boxes can be rented for an entire fiscal year beginning June 21st, but they still may be rented for three months at a time as in the past, if the patron so desires. If a patron surrenders a post office box before the end of a rental period, no refund of box rent is allowed.

A number of post office boxes are available for rent, and patrons who do not live in the same house or are not in business together should rent a box of their own. Your cooperation in this will be appreciated, stated Postmaster Guy Harp.

City delivery is serving most of the town and some still are not aware that they are eligible for this service. If one is interested and is not sure, ask at the main post office.

Delores and Barbara Allison of Amarillo are spending this week with their grandparents, Mr. and Mrs. A. C. Darst.

All kinds of fire-works on Hereford highway across from Canyon Drive-In. 10:3

# Around the Town...

(By Mrs. Clyde W. Warwick)

Thirty-four years ago Dr. L. F. Sheffy and Dr. Hattie Anderson called a meeting of the pioneers of the Plains and a few interested people for the purpose of organizing what is now known as the Panhandle-Plains Historical Society. This group has grown until at the last meeting reservations were made by 275 people. The society is composed of all creeds, professionals, and businesses and is one of the most enjoyable meetings held in Canyon. The interest and growth of the society is due in a large part to the enthusiasm and untiring efforts of Dr. Sheffy, Dr. Anderson, Mr. and Mrs. Boone McClure and Dr. Ima Barlow who each year spend unlimited time that this gathering may be pleasant and profitable to the pioneer and those interested in the preservation of history, and to those who like to pay their respects to the hardy pioneer who laid the foundation of the civilization we enjoy today.

The Softball League which has recently been organized by a number of outstanding men in Canyon for the purpose of teaching young boys how to play is a most worthy project. It not only teaches the boys good sportsmanship but gives them something worth while to do.

The men who are sponsoring this league are all busy men, who are giving unselfishly of their time to the developing of better boys. It's things like this that make you glad you live in Canyon.

Mrs. R. S. Rigby gives her recipe for Cream Coconut Pie.

2 cups of half and half cream  
2 Tablespoons of Swandown cake flour

1 Tablespoon corn starch  
1/2 teaspoon salt  
3 egg yolks  
1 teaspoon vanilla  
1 cup sugar

Mix thoroughly, cook to a custard add 1/2 cup coconut, pour in a baked pie shell. Top with a meringue made of the 3 egg whites, use two tablespoons sugar to each egg, sprinkle with coconut, bake in 300 degrees oven until meringue is brown.

Mrs. Don Standley's father and mother, Mr. and Mrs. H. T. Carr of Brownfield, have been visiting with her while Don has been in Baton Rouge taking a course in banking. Don returned Saturday and Mr. and Mrs. Carr left Saturday for their home.

Mr. and Mrs. Dale Killingsworth are building a new home at 2405 9th Ave., just west of the Bill Money's new home. It will be finished in a dark red brick with a white trim.

## BOOKS

Latest editions in which you are interested.

### Children's Books

We have the largest selection of beautiful books for children ever shown in Canyon.

**WARWICK'S**  
The Gift Shop

Mr. and Mrs. W. R. Wilson have moved to the residence at 2513 5th Ave., just west of the Ples Harper home.

Dr. Ima Barlow's mother, Mrs. Ida Barlow, and her sister, Mrs. Summerville of Wichita Falls, Texas, are visiting with her. Mrs. Summerville will be here for about a week but Mrs. Barlow will spend the summer here.

Someone has said: "The people who make history never have time to write it." But Winston Churchill did. He made history, wrote it, is one of the recognized artists of his time, the outstanding orator of his time and seems to have mastered the art of living to it's fullest.

Mr. and Mrs. Bernard Warren are building a new home at 2419 8th Ave., just east of the Wilford Taylor, Jr., home. It will be ranch style, with wide overhanging eaves and is to be finished in a pinkish tan brick.

Prof. and Mrs. Joseph Findley and Mrs. W. T. Green left Friday for Greeley, Colo., where Mr. Findley will attend Colorado State College of Education for the summer. Mrs. Findley and Mrs. Green will return to Canyon after a short visit in Greeley.

In one of Abraham Lincoln's books was found this inscription: "Abraham Lincoln. This is his book and pen. I will be good but when?"

And now there is being offered a correspondence course in "The Art of Conversation." The advertisement says this: "Conversation is your ability to talk WITH others not AT them." The first duty of man is to speak. "His second duty is to learn how to converse with his fellow man."

Mrs. Lonnie Woody and son Tommie Dumas are visiting with her parents, Mr. and Mrs. Bill Money. Mrs. Money's mother, Mrs. W. J. Hinkle, who spent the winter in Austin with her son, Olin Hinkle, is with her now and says she is going to stay in Canyon.

"And the Lord God said unto the serpent, Because thou hast done this, thou art cursed above all cattle, and above every beast of the field; upon thy belly shalt thou go, and dust shalt thou eat all the days of thy life: And I will put enmity between thee and the woman, and between thy seed and her seed; it shall bruise thy head, and thou shalt bruise his heel." Genesis 3:14-15.

This is the way I was taught to feel about snakes. My little neighbor boy, just seven years old last Tuesday, has had the usual array of pets that a small boy accumulates during his first seven years. He came to see me Thursday to tell me he had a new pet — of all things A SNAKE — and asked me not to kill it if I saw it. I told him I didn't like snakes, but he assured me the snake would eat all the bugs and mice on the place and that it wouldn't bite AND that if I would pick it up and pet it I would like it. Well! I won't kill the snake for his sake, but neither will I pick it up and pet it. Just one of the things that make one realize we are living in an ultra modern age.

Neiman-Marcus, Monday in the Dallas News advertised a ladies watch, their own original design, completely hand-made, scarcely larger than a half carat diamond, "The finest watch in the world," they say. It can be purchased for \$6,800. Nothing

is said about it's ability to keep time.

Saturday Mrs. Tom Knighton, Mrs. John Davis, Mrs. J. Evetts Haley, Mrs. R. A. Neblett, Miss Dorothy Elizabeth Neblett, and Mrs. Clyde Warwick attended the Esther McCrory D.A.R. Flag Day luncheon at the Amarillo Country Club. Dorothy Elizabeth as winner of the Good Citizenship award, given by the State D.A.R. to the Canyon High School, and her mother, Mrs. Neblett, were presented to the society and the award was presented to Dorothy Elizabeth.

Mr. and Mrs. M. J. Newman have purchased a home at 2603 6th Ave. and will be moving the 20th of this month.

The world's heaviest eaters, according to United Nations experts, are the Irish, who average 3500 calories a day. East Indians, with 1570 calories per person, have the lowest intake.

Old Age!

"And honor the face of the old man." Leviticus 20:32. Suppose they'd given up and quit... And claimed that they had done their bit? At 80 Franklin helped to frame... The Constitution and the name... Of Gladstone shone at 83... As head of England's ministry... And Justice Holmes at 91... Did not consider he was done... It's only when you FEEL you're through... That old age catches up with you. Julien C. Hyer.

Court reserves decision on order barring fraternities.

### Just Between You, Me... and the Gatepost

By Lawrence Hunnicutt

For many the pace of living has sort of slowed down until the mid-summer vacation rush begins. Others are taking their vacations now and getting the hectic portion of the vacation period over with early. Those who left early on vacation also missed some of our stormiest weather in several years.

Toney Brown is getting, or perhaps by now has finished getting, his personal affairs in order to be gone for a period of four years. He's going to study dentistry and will embark upon the four year school period for this profession this fall. We hope him a lot of luck and success but we're going to miss him a great deal.

The wind and rain Thursday night was witnessed from the VFW club by a group of members. They were out there to clean up the grounds but the wind and rain came up and they had to sit this one out. Some of the women of the Auxiliary were out to prepare supper for the men and were also trapped until the downpour let up. During the storm Mary McBroom wondered if any of the houses in Canyon were being blown away. Johnnie McBroom, John Hardaway, Boots McBroom, and Billy Black went on with their game of block through most of the storm. When it really got bad they went to the door and looked out.

Our 4-year-old daughter put in a good plug for our Canyon streets and alleys recently. We were in another town and going down a street that was pretty rough and bumpy when she suddenly asked, "Is this a street?" When informed that it was she gave out with an innocent "Oh!" and continued with "I thought it was an alley, but our alleys in Canyon are better than this."

Since he stopped smoking awhile back, Guy Harp has noticed that he is picking up a little extra weight. This being an addition he doesn't particularly care for, he's seriously considering going back to smoking to see if he can take off the newly acquired weight. The reason we know about this is that we have a little of the same problem and are going along with Mr. Harp's smoking idea hoping to keep the waistline down a bit.

Cinemascope, one of the new and modern developments in motion pictures is coming to Canyon soon. Charles Donnell is installing the equipment for this new type of movie in the Varsity Theater. Canyon can boast several new and comparatively costly developments being completed at this time. There's the new service station just across the street from the Varsity, another big, new station going up the street a couple of blocks and the additional elevator space up west which will soon be finished.

Apologies are in order for Miss Peggy Bonds over in the County Clerk's office. She gave us a news item last week that was lost before we got into the office. Peggy and Betty Huffman keep up a pleasant conversation which makes our Saturday morning visit to the court house an enjoyable one.

A plea for help has been sent out by the Chamber of Commerce. A man in Mansfield, Louisiana, has written for a ground squirrel to keep as a pet. The C-C will pay for four of these little animals, so if you can catch one, call the Chamber office and tell them you're bringing one in.

One of the best tonics for what ails you, is a good laugh, but if you're a worrier there's one consolation in the fact that there's little difference in a laugh-line and a worry line in your face.

Life is made up of ups and downs, when it puts you down it's your responsibility to get back up.

SOUND INSURANCE FOR TEXAS FAMILIES

By LYNDON B. JOHNSON  
U. S. Senator

Congress is headed into one of the greatest legislative log jams in its history.

The Administration's leaders — Senator Knowland in the Senate and Speaker Martin in the House — are still shooting for a July 31 adjournment. But many old-timers think this target too ambitious. They set August 15 as the minimum.

Every session of Congress ends in a last-minute rush with bills shooting through the legislative machinery at a mile-a-minute clip. But it is rare to have almost all of the important business still pending in mid-June.

Only a little more than six weeks remain if we are to meet the July 31 deadline. And there is one factor which could throw all of our present calculations out of kilter. It is the situation in Southeast Asia.

Military leaders of several nations have been conferring in Washington. The situation is very dangerous. We do not know what is going to come out of the Geneva Conference. The Administration has not made any recommendations to Congress and the President says

he is not going to act without Congressional approval.

A Presidential request would precipitate a Congressional debate that would take many days, even weeks.

Here is the legislation we now know remains to be tackled:

#### Appropriations

More than 38 billion dollars — including 29 billion dollars for the Armed Services alone — still to be considered by the Senate.

#### Agriculture

Neither the House nor the Senate yet has a bill ready for consideration. But if no action is taken, flexible price supports will go into effect automatically. The American people are entitled to a clear vote — for or against — on this issue. Congress cannot — and should not — adjourn without expressing its will — without standing up to be counted.

#### Foreign Aid

Both the House and the Senate have yet to tackle the issue of Foreign Aid. The Administration is asking for about \$3,500,000,000. Congress will insist on a close scrutiny of every cent. Both an authorization and an appropriation are requested. Each request will take time.

#### Housing

The House and the Senate have both approved bills — with the Senate bill much closer to President Eisenhower's recommendations. There are 159 differences between the two bills which must be adjusted in a Senate-House conference committee. This will take time!

#### Reciprocal Trade

The Randall Commission called for a program of extensive tariff reductions. The President revealed that he would settle for a one-

year extension of the Reciprocal Trade Agreements Act. Action is still pending before both the House and the Senate.

#### Social Security

A bill to broaden and extend Social Security is pending before the Senate. It is difficult to see how this measure can be reached until sometime in July. After Senate action, it will have to go back to the House for adjustment of differences that are almost inevitable. It is rare for both Houses of Congress to pass such an important bill in identical terms.

#### Tax Revision

An 875 page bill — approved by the House — is pending before the Senate. It is one of the most sweeping revisions of tax laws in our history — and one of the most controversial. Every line requires the most careful and deliberate study.

#### What Are The Prospects?

Action seems assured on all the issues listed above. But action cannot be taken in a few days. Congress faces several weeks of grueling sessions—weeks in which every member must stay in Washington and keep his nose to the grindstone.

These bills are far too important to be handled with a lick and a promise. Their impact upon these everyday lives of our people is far too great. A careful, painstaking job is necessary. In no other way can the public interest be protected.

#### Why The Log Jam?

Last year was a "year of studies." That meant that the Administration postponed most of the work until this year. But when the results of the studies started to trickle in last January, they, in turn, had to be studied by the Congressional committees.

The obligation of Congress goes far beyond mere acceptance of the recommendations of so-called experts. Experts are necessary and it would be a mistake to consider important matters without their testimony. But the final responsibility rests upon the elected representatives of the people.

The study of the expert recommendations took time. It was time well spent. Now we are heading into the action stage.

#### A Case In Point

One obvious case which points up the need for Congressional study of expert recommendations was the Social Security bill. At one time, the measure blanketed doctors within its provisions.

It became obvious that the doctors do not want to be covered. Therefore, they will not be forced into the Social Security System against their will.

At a recent shipyard launching the woman who was to christen the boat was nervous.

Shipyard manager: "Do you have any questions, lady?"

Woman: "Yes, how hard do I have to hit it to knock it into the water?"

Dr. Everts A. Graham, cancer specialist: "Completely separate studies in Britain and the United States show a very definite statistical relationship between excessive smoking and cancer of the lung."

The terrace is an age old device to combat soil erosion.

## Nation-wide Test Made on Defense; 3 Texas Cities

AUSTIN: The eyes of Texas were on the three largest cities of this state June 14-15, a period in which Houston, Dallas and Fort Worth got their biggest testing so far of atomic defenses.

The beginning of the test came with a hypothetical bombing in the down-town areas of the three cities. There were no actual explosions, although follow-up operations were as realistic as possible.

On duty were complete staffs of the three city Civil Defense units. Also on the job were corresponding staffs of State Disaster Districts and the State Defense and Disaster Relief Council at Austin.

William L. McGill, State Coordinator of Civil Defense and Disaster Relief, said each of the Civil Defense Directors in the three Texas cities indicated that they planned full-scale operations which included varying degrees of public participation such as the soundings of warnings, taking shelter and evacuation.

McGill added that no actual movement of materials, manpower and supplies was involved in the test on a state level. However, all requests for aid, damage and other messages were carried through various channels of communications used in the state's civil defense system as a means of testing their efficiency.

"We want to make the exercise as realistic as possible," he noted. "As a result, we will simulate the use of only those resources known to be available at the time of — and following — the hypothetical attack."

McGill also said that at least four values should be gained from the test:

1. The promotion of increased operational capability, more training and additional interest in civil defense at all levels.
2. The testing of air raid warning systems and communications systems for capabilities and/or deficiencies.
3. The testing of traffic control procedures for vehicles and pedestrians alike, in addition to education of the public in the need for seeking shelter and/or evacuating just before an attack.
4. The coordination of operational procedures and standards at city, district and state levels.

Dallas, Fort Worth and Houston were selected among 42 in the United States and its territories as part of an International Test Exercise, "Operation Alert," by the Federal Civil Defense Administration.

AFL Executive Council report: "There are more than 5,500,000 workers unemployed and the figure is growing and will continue to grow if something isn't done to stem the recession immediately."

THE REASON  
The reason most women don't look good in slacks is because the distance is too great between their hip pockets.

Twining says Red-built bomber can reach the U. S.

# Why America's sold on Ford!

With the most modern engines in the industry...the newest ride in 20 years...the best looks on the road...and all the power assists you want\*, Ford is America's "Worth More" Car.

There's a big reason why more and more price-conscious buyers are swinging to Ford. It's because Ford's just plain worth more. What other low-priced car, for instance, offers a deep-block, low-friction engine? Ford's new Y-block V-8 and I-block Six are America's most modern engines. And what other car in Ford's field has Ball-Joint Front Suspension, a long, low Crestmark Body and such extra-cost driver assists as power on all-four windows and a 4-Way Power Seat?

Ford is worth more when you sell it, too!

No other cars in America are returning a greater percentage of their original cost than year-old Fords...another big reason why Ford owners stay Ford owners.

We cordially invite you to come in and Test Drive a '54 Ford

## WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

Expense accounts are recognized in business. Many firms feel goodwill and harmony is promoted by purchase of a lunch, dinner, or some other gesture toward a customer or prospect.

However, in any well run firm, there is a limit on expense accounts.

But a study of U. S. Protective tariffs and their destruction by reciprocal trade treaties show that in permitting these treaties Congress has allowed

Senator George Malone (Nev.) emphasizes this point stating in world trade conferences, other nations are represented by top businessmen with full knowledge of industries for which they seek or grant concessions.

But U. S. is represented solely by State Department functionaries whose experience, training, aptitudes and desires are far removed from the American business scene. Our representatives are present. Senator Malone states, solely for the purpose of making friends. If cost of making such "friends" results in giving away an American industry, and the workers' jobs, the State Department officials neither realize nor care. They have paid a bribe for friendship, and that's that.

In early 1930's, before U. S. went on reciprocal trade treaty jag, U. S. tariffs protected domestic producers with duties on practically everything at an average rate of 50 per cent.

But now, Senator Malone states, 60 per cent of all imports come in free and the average

rate on the balance is 12½ per cent. Thus the average tariff on all imports coming into the U. S. is now only 5 per cent.

But England, who more than a year ago, started to promote free trade with U. S. with slogan "Trade, Not Aid" has an average tariff of 25.6%, Chile has a 46.3% rate, Mexico 20.6%, France 10.6%, Italy 8.4%.

Yet Randall Report urges further reductions in U. S. tariffs.

Drive to gain "friends" by giving away the country appears to be bureaucratic mania.

Rep. J. Dempsey (N.M.) states on April 7, U. S. had 356 million pounds of surplus butter in storage.

Yet on April 1, Army Department reported it bought 5,341,000 pounds of butter in foreign markets, principally Denmark and shipped around world to far East command when surplus butter could have been shipped from U. S. west coast.

Congressman Cleveland Bailey (W.Va.) states a recent survey establishes that at least 300,000 American workers are now jobless because of inadequate tariff protection from cheap foreign products made by workers receiving as little as 14c per hour.

That briefly, is background of Congressional battle on reciprocal tariff treaties.

While expense accounts are recognized in business world no firm permits its emissaries to give the company away.

So many Congressmen feel now is the time to stop use of blank checks drawn against nation's economic health to bribe "friends" feeling perhaps such "friends" are more deadly than nation's enemies.

## Nuptial Plans Revealed at Coffee

MISS NELDA RUTHART

Nuptial plans for Nelda Ruthart, daughter of Mr. and Mrs. Ralph Ruthart, and Troy Burrus, son of Mr. and Mrs. B. A. Burrus, were revealed Saturday, June 12, in the home of the bride-elect, when Mrs. Ruthart entertained with coffee for a few close friends of the families.

Guests were greeted by Mrs. Ralph Ruthart, Mrs. Burrus, and the honoree. Miss Juanell Burrus secured names at the bride's book.

Pink and blue, the bride-elect's chosen colors, were featured in arrangements of cut flowers throughout the entertaining rooms.

Laid with a white cutwork linen cloth over blue, the crystal and silver appointed serving table was centered with an artistic arrangement to reveal the wedding date. Miniature cupids drawing a love cart filled with pink tea roses and carnation on a pink satin base were backed with a large satin heart bound with white satin studded with seed pearls and bearing the inscription "Nelda and Troy." Standing beside the cart were the date "July 9," made from satin and with decor to match the large background heart. White tapers surrounded with pale blue net in crystal holders completed the centerpiece.

Mrs. Teddie Poindexter presided at the silver coffee service. Mesdames Cleo Smith, Lynn Williams, and Robert O'Donald assisted in the house party and in serving the baby sweet rolls, melon balls and sprays of green grapes.

Forty-five guests called during the receiving hours.

## HAMBURGER FRY IS HELD AT McBROOM HOME FRIDAY

Mr. and Mrs. Jack McBroom entertained their children with a hamburger fry in their back yard Friday night.

Attending were Mr. and Mrs. Jack McBroom, Jr., and two boys of Fort Worth; Mr. and Mrs. Everett J. McBroom of Friona; Mr. and Mrs. Gene Howell and two girls of Bushland; SFC Delbert G. McBroom of Ft. Sill; Mr. and Mrs. Lewis Tucek, Lucy and Gary; Margaret Hackler of Olton; Mr. and Mrs. O. A. McBroom, Alvin, Billy, Martha, Jim, Orin.

## THE HONEYMOON IS OVER

The couple were spending the evening in the quiet of their own home. The lights were low, the fireplace a mass of glowing coals, and soft strains of Auld Lang Syne came from the radio. The wife was in a mellow mood and lost in romantic thought when the head of the house broke the spell: "Wonder why a windshield rubbed with a raw potato doesn't freeze?"

Buy, Build, Live in Canyon!

## Pain in the Neck

## WORKING ON Ph.D.

Cecil Briggs was in Lubbock Saturday in conference with Dr. Per Stensland of Texas Tech. Mr. Briggs is enrolled this summer at Tech doing a research problem in work toward his Ph.D. in education department under the guidance of Dr. Stensland. This problem is to evaluate some adult programs which operated last winter and to assist in making plans for the fall programs that will be conducted in different towns over the Panhandle and West Texas next fall.

At a medical school the following question was asked on the final examination: "Why is mothers' milk better for babies than cows' milk?"

The following answer was turned in by one of the students:

1. It is fresher.
2. It is cleaner.
3. It is easier to take on picnics.
4. It comes in cute containers.

Teacher: "With a single stroke of a brush, the great painter Joshua Reynolds could change a smile into a frown."

Pupil: "Aw, that's nothin', so kin my old man."

## CLEAN GETAWAY

A waiter in a swank restaurant was horrified to see a patron washing his spoon in the fingerbowl. Calling the manager, they hurried to the man's table. "Why on earth," demanded the manager, "are you washing your spoon in the fingerbowl?"

"For the perfectly good reason," retorted the diner, "that I don't want to get ice cream all over my pocket."

## POOR SUBSTITUTE

Hubby: "I want three potted geranium plants."

Florist: "Sorry, we're out of geraniums, but we have some nice potted chrysanthemums."

Hubby: "No," they won't do. You see, I promised my wife I'd water her geraniums while she was away."

"And what do you want to charge your husband with?" queried the judge.

Wife: "Free love, Your Honor. He ain't supported me for three years."

Ahoy, it must have gone a mile. Why, I can hardly see. But lo, I found it soon enough. Still settin' on the tee.

## Latest Rumors From Political Front of Nation

Sir Winston Churchill, Britain's Prime Minister, is thinking in terms of a final crowning visit to Washington in which he and President Eisenhower would formulate a new declaration of principles comparable to the Atlantic Charter of 1941. Sir Winston no longer is hopeful that a visit to Moscow to confer with Premier Malenkov would be productive.

Joseph McCarthy, Wisconsin Senator, is making more frequent trips back to Wisconsin to repair political fences. Senator McCarthy is very much interested in the inner workings of the recall movement that produced a large number of signatures, although falling short of the necessary minimum.

President Eisenhower is being told by his political advisers that it is not to be easy for Republicans to keep control of both houses of Congress in the coming November elections. It is being suggested that the President take a more forceful role in practical politics.

Opinion surveys, privately conducted by both Democrats and Republicans, continue to suggest that President Eisenhower is popular with the voters. The President, surveys suggest, is not being blamed personally for all of the irritations that may be troubling the country.

Sinclair Weeks, Secretary of Commerce, and George Humphrey, Secretary of the Treasury, are strongly opposed to suggestions that stand-by war controls be enacted now to take effect in event of war. Officials do not want to revive the idea of controls in minds of businessmen or to suggest that war may be just around the corner.

A suggestion is going out from high quarters in Government that businessmen should talk up the idea that things are good now and are getting better every day.

Mr. Eisenhower is having some trouble making up his mind on the question of increasing or not increasing the country's military budget for the year ahead. Heads of the armed services favor an increase. Influential Cabinet officers argue that the goal of a balanced budget may be more important.

Ezra Benson, Secretary of Agriculture, still is hopeful that a compromise can be worked out in a conference between Senate and House on the issue of price supports for farm products so that a White House veto can be avoided. Mr. Eisenhower is close to a commitment to veto any plan that extends present supports.

The President is described by friends as feeling that Dr. J. Robert Oppenheimer, the atomic scientist, was dealt with fairly by the board that found him loyal but barred him from his job, even though a number of newspaper columnists are very critical of that finding.

If the truth be known, the troubles of Dr. Oppenheimer trace to that scientist's effort to influence the military strategy of the U. S. The scientist's attitude toward the strategic arm of the Air Force and efforts to promote that attitude somewhat alarmed high military commanders.

Robert Stevens, Secretary of the Army, was following the Administration "line" when he sought to do favors for G. David Schine, who was facing a draft call. Instructions late in 1953 were to seek in every way to avoid offense to Senator McCarthy and his committee.

Gen. James A. Van Fleet, after a mission for the President to the Far East, called attention to two armies now idle that could cause trouble for Communist China in case of new aggression. A powerful South Korean Army is available to act against truce violations, and the Nationalist Chinese Army on Formosa can cause diversions. The General did not recommend

commitment of larger American ground forces in Asia.

Admiral Arthur Radford, Chairman of the U. S. Joint Chiefs of Staff, at no time proposed either to leaders in Congress or to U. S. allies that American air power be used immediately to strike at Communist forces attacking in Indo-China. At the point when reports had the Admiral urging at immediate strike, he actually was advising that any such strike then was too late to save Dienbienphu.

In case the need ever arose, U. S. forces would help with evacuation of the French from the Tonkin delta area of Indo-China. The French are getting assurance that there will not be a Dunkirk even if worst comes to worst.

India's Premier Nehru is regarded by American officials as a bit less inclined to consider that Communist governments can do no wrong, now that armies of Communism are creeping nearer to his own country. Mr. Nehru is showing a spark of interest in plans to do something about Communism's spread in Southeast Asia.

A drunk staggered out of a tavern and started to walk up the street with one foot in the gutter and the other on the sidewalk. After a block or so he was accosted by a policeman with, "Hey, you, you're drunk." "Thank goodness," exclaimed the inebriated one, "I thought I was lame."

**A MOOT POINT**  
A meek little man asked, "Did you say that a good poker player could hold any kind of executive job?"  
"That's right," answered the lecturer. "Does that raise a question in your mind?"  
"Yes," was the reply. "What would a good poker player want with a job?"

Well, I don't count the ones I miss  
Or putts that are too short  
If I didn't cheat a little bit  
How could I enjoy this sport?  
Restore the soil—restore it.

## NEWS LETTER

FROM CONGRESSMAN WALTER ROGERS  
OF THE 18th CONGRESSIONAL DISTRICT

I use the word ditto as the heading for this part of the newsletter because my heading last week was "Gagged Again."

I could use the same heading again, because the same thing has happened again. I have just returned from the Floor of Congress, where H.R. 9474 was being considered. This bill is a law to extend the authority of the President to enter into trade agreements under Section 350 of the Tariff Act of 1930, as amended.

The law extends this authority in the President for a period of one year. Eisenhower had requested that the extension be for three years, but after much agitation, confusion, and debate behind the scenes, it seems that the White House put the stamp on approval on the one-year extension.

In any event, that was the bill that was brought before the House for passage. It was brought in under the closed rule or, as I said last week, the "gag rule."

The duly elected representatives of the people did not have a right to change one word in the bill as it was written by the Ways and Means Committee. I repeat that this is steam-roller politics.

Under the democratic form of government, it makes little difference whether a man is for or against a piece of legislation, as long as he is a Member of Congress he is a representative of the people and should be entitled to be fully heard on these matters and to have an opportunity to seek such changes in them as to him may seem pertinent and to the best interests of his constituents.

### Water

The irrigation program in our district has been moving along at a pretty good pace and we hope that it will be continued. I have obtained some figures from the Farmers Home Administration, of the Department of Agriculture, that I think will be of interest to you. They are as follows:

"For the current fiscal year, \$6,500,000 was available for making loans under the water facilities program. Of that amount, \$600,000 was allotted to the State of Texas. The President's budget request for the fiscal year 1955 provides for an appropriation of \$6,500,000. If that amount is appropriated by the Congress, it is likely that the allotment to Texas for the fiscal year 1955 will be about the same amount as in 1954.

If Senate bill 3137 should be enacted into law, additional funds might become available under the insured loan features of that bill. To the extent that lending institutions participate in the insurance loan program under the Water Facilities Act, considerable expansion of the loan program could take place in Texas in the fiscal year 1955.

"As of June 1, the Farmers Home Administration had made 142 loans, totaling \$585,660, from regular water facilities loan funds allotted to Texas. In addition, 57 loans, totaling \$344,315, have been made or are in process of being made for water facilities purposes from economic loan funds. Under these two programs, the total number of loans made or in process is 199 for an amount of \$929,975."

### Hearings in the Senate

During my years of law practice in the Panhandle, I have heard many people, especially prospective jurors, complain about the slowness of court proceedings.

I, of course, agree with them that there are many things that can be done to speed up the court proceedings. The judge is usually bending over backwards trying to see that no one's rights are infringed upon, and that the law is followed to the letter so that justice may finally prevail.

However, one look at the Senate hearings would make a so-called slow court proceeding look like a jet-propelled plane. The reason that the headway has been so slow in these hearings is that no one wants to answer questions and everyone wants to make a speech over television. The questioner usually makes a speech instead of asking a question.

When a question is asked that could be answered and throw some light on the subject, the witness usually makes a speech as his reply.

I had a chance to listen the other morning and was reminded of the story of the old darkey who turned up late to work. His boss asked for his excuse and the darkey told him that he had stopped down at the corner to hear a politician make a speech. The boss asked the darkey what the man talked about. The darkey replied, "Not much, except he sho did highly recommend himself."

I still say that a good West Texas grand jury could have separated the chaff from the grain and had the facts thoroughly documented in not more than two weeks.

### Three Pretty Good Qualities

A commencement speaker at one of the schools here in Washington told a graduating class recently that three qualities were necessary for human success, a wishbone, a backbone and a funnybone. First, an ideal to work for; second, the perseverance to carry it out;

and the last, a saving sense of humor about human frailty.

### Change in Pledge

I have received many letters requesting early action on the Resolution to insert the words "under God" in the Pledge of Allegiance to the Flag. I am happy to report that the House and the Senate have passed a Resolution to insert these words in the Pledge of Allegiance and the Resolution is now in the White House awaiting the President's signature. As soon as he signs it, the official Pledge of Allegiance will be as follows: "I pledge allegiance to the flag of the United States of America and to the republic for which it stands; one nation under God, indivisible, with liberty and justice for all." Word from the White House at 9 o'clock this morning was that the President had not yet signed the measure. However, it will be the law long before this letter reaches you.

### A LUCKY CATCH

Copenhagen, Denmark. — As 1,500 gasping spectators looked on, an acrobat leaped into a circus ring and caught his wife safely when she slipped and plunged 30 feet from a trapeze. Susan Tacoma, 23, was hanging on the high wire by one foot with no net below as her husband, Walter, watched from the ringside. Suddenly, she fell, head first. He sprang into the ring, just in time to catch her. The force of the fall sent both reeling, but, in a moment, they were up smiling and only bruised.

### SOME CLOCK

Myrtle — How does that clock go that you won at the fair?  
Vernon — Fine! It does an hour in less than 45 minutes.

## Bull Judging Is Carefully Studied At PanTech Farm

Experiments at the PanTech Farms indicates you can't judge a bull by appearance only. Their findings are discussed in the article "A New Angle on Judging Bulls."

Such qualities as an animal's ability to gain — and gain cheaply — have been found to be "heritable." So has heavier weaning weight, often thought of as "90 per cent milk production."

Started in 1950, the experiment in feeding sire groups has now included 439 young bulls from 38 Texas ranches, the offspring of 66 different herd bulls. Texas ranchers bring bulls from their own herds to be tested. When the 140-day feeding tests are over, they either take them back or put them up for sale.

About 10 percent will gain over 400 pounds and about 15 percent under 300 pounds during the 140-day feeding period. They all get exactly the same ration, self-fed. One interesting point is that the extremely-high and the extremely-low gaining groups may look a lot alike as to type and conformation.

Records for four years on 439 bulls indicate that the high-gaining bulls require less feed per 100 pounds gain. They found a difference of 30 to 40 pounds weight at weaning-time between offspring of high- and low-gaining sires the first year, 50 pounds difference the second year.

Later it is hoped the program can include a study of cows as well as bulls. They hope to set up a method of calling that will work for commercial herds as has already been done with registered herds. They want to find a way to cut out non-producers and low gaining producers among range cattle.

### ELEPHANT RUSTLERS CAUGHT

Williamsport, Pa. — Police recently went on a safari and rounded up a band of 12-year-old "rustlers" of 500 elephants. Mrs. Nathan B. Bubb, Jr., had notified police that the "rustlers" had taken a herd of 500 (china) elephants from her garage. The elephants were returned to their owner and the only damage reported was one ear broken off a 5-inch-china pachyderm.

## Elliott-Evans Exchange Nuptial Vows In Double Ring Rites J. A. Hill Chapel

MR. AND MRS. DAVID EVANS

Joseph A. Hill Chapel on West Texas State campus was the setting for the twilight wedding of Miss Betty Elliott, daughter of Mr. and Mrs. Boyd Elliott of Amarillo, and David Evans, son of Mr. and Mrs. Nolen Evans of Childress, Friday evening, June 4, at 7:30 o'clock.

Rev. Jim T. Pickens, minister of the First Methodist Church of Vega and former director of Wesleyan Foundation on West Texas State campus, read the double ring services before an altar decorated with vases of yellow gladioli and flanked with baskets of yellow gladioli backed by branched candelabra with the cross flanked by candles on the altar.

Mrs. Leta Crudginton at the organ played "Chorale" by Bach, "Romanza" by Mozart, "Love Song" by Cadman, as prenuptial numbers; accompanied Miss Jeanne Pierce of Paris, Texas, niece of the groom, who sang "Through the Years" by Youmans and "I Love You Truly" by Grieg. The traditional wedding marches were played for the processional and recessional, and "Liebestraum" by Liszt formed the musical background for the ceremony.

Misses Brenda and Linda Evans of Childress, twin nieces of the groom, dressed in yellow and carrying white candles centered in yellow daisy bouquets, lighted the candles.

Miss Charlotte Ferguson of Houston and Miss Mona Smith of Muleshoe, attendants to the bride, wore street length, rust linen dresses and carried nosegays of yellow daisies tied with streamers of matching satin ribbon.

Charles Evans of Childress, brother of the groom, was best man. Gene Murray of Childress was groomsman.

John Butler of Chicago, Howard Birdwell of Canyon, Floyd Evans of Childress, and Horace Evans of Wichita Falls, brothers of the groom, served as ushers.

Given in marriage by her father the bride wore a street length dress of white embroidered nylon organza over white linen with white shoes and hat. Her only ornament was a pearl and rhinestone necklace, a gift of the groom. She carried a white orchid centered in Stephanotis upon a white Bible.

Mrs. Elliott wore a navy and white nylon dress with navy accessories and a white carnation corsage. Mrs. Evans wore a lavender and white dress with white accessories and a white carnation corsage.

Immediately following the ceremony the bridal party and guests were honored at a reception in the Methodist Student Center on the campus of West Texas State. Punch and cake were served by aunts of the bride, Mrs. Henry Jones of Springer, N. M., Mrs. Herbert McCabe of Dawn, and Mrs. Van Groves of Amarillo. Guests were registered by Mrs. Bill Cartmel of Dimmitt, cousin of the bride.

For a week-end trip to points of interest in New Mexico, the bride traveled in a brown linen suit with white accessories and a white orchid corsage.

The couple is at home at 2108 Fourth Avenue, Canyon.

The bride graduated from Amarillo High School in 1952 and is attending West Texas State College where she is a junior, majoring in music. She is a member of Tau Beta Sigma, Mary E. Hudspeth Honor Society, Wesley Foundation, and Buffalo Band.

The groom graduated from Childress High School in 1951, took his B.M.E. degree from West Texas State in 1954. While enrolled there he was a member of Kappa Kappa Psi, Wesley Foundation, and the Buffalo Band. He is now employed

at the U. S. Post Office in Canyon.

Among guests coming from a distance to attend the wedding were Mrs. Charles Evans, Bruce and Dea of Childress, Mrs. Horace Evans, Judy and Dickie of Wichita Falls, Mrs. Floyd Evans of Childress, Frank Norfleet of Hale Center, Mrs. Felix Floyd of Springer, N. M., and Mr. and Mrs. Charles Preslar of Childress.

Recently the couple was honored with a bridal shower given in the parlor of the First Methodist Church in Childress. Hostesses for the occasion were Mesdames Bill Pennell, Mike Pennell, Etta Sartin, Clarence Darter, Bill Purcell, Juanita Griffin, Fern Maddox, Frank Barksdale, Rubye Cannon, Beatrice Bowling, Birdie Hardison, Tom Roberson, Jack Long, Ben Hardison, J. B. Cramer, Bill Goodson, Dub Nelson, J. L. Johnson, H. C. Preslar, C. L. Bain, and Miss Nell Rogers.

### THE HORRID THING

Mrs. Junebride — How do you like this cake I made? It's pound cake.

Her Husband — Hm! You're wrong with your weights! I thought it was at least ten-pound cake.

Richard Russell, U. S. Senator from Georgia: "If the time ever comes when the Federal Government controls all the elections and counts the ballots here in Washington, then our form of government, as we have known it, is through."

Meyer Davis, famous orchestra leader, who has provided music for society balls since World War I: "Today's debutantes have better manners and more sense than did their parents at the same age."

A new novel is described by the critics as being sincere, refreshing and clean. The author is in despair.

### CITATION BY PUBLICATION OF FINAL ACCOUNT

THE STATE OF TEXAS  
TO ANY SHERIFF OR ANY CONSTABLE WITHIN THE STATE OF TEXAS — GREETING:

Harry H. Barnett, Guardian of the Estate of Eula Darlene Barnett, a minor, having filed in our County Court his Final Account of the condition of the Estate of said Eula Darlene Barnett, a minor, numbered 846 on the Probate Docket of Randall County, together with an application to be discharged from said Guardianship.

YOU ARE HEREBY COMMANDED, That by publication of this Writ one time and said publication shall be not less than ten days before the return day hereof, June 21, 1954 in a Newspaper printed in the County of Randall you give due notice to all persons interested in the Account for Final Settlement of said Estate, to appear and contest the same if they see proper so to do, on Monday the 21st day of June A. D. 1954, at the Court House of said County, in Canyon, Texas, when said Account and Application will be acted upon by said Court.

GIVEN UNDER MY HAND and seal of said Court, at my office in the Court House of Canyon this 5th day of June A. D. 1954.

T. H. LAIR  
Clerk, County Court  
Randall County.

## Rainfall and Run-off Are Under Study

Cities and industries have been asking whether soil conservation being carried out by thousands of farmers and ranchers through soil conservation districts will reduce the amount of water available for municipal and industrial uses.

H. N. Smith, State Conservationist for Texas, says that for all practical purposes the answer seems to be "no."

The Soil Conservation Service has been studying this problem. Watersheds project near Riesel, at the Blacklands Experimental Texas, since 1940. The studies include measurements of rainfall and runoff from two similar watersheds. They are still in progress.

Similar farming practices were being followed on both watersheds at the beginning of the study. Conservation practices were established on one of the watersheds in the spring of 1943. These practices included changing part of the cultivated area to grassland; the use of improved crop rotations; and the construction of terraces on land in cultivation. No change was made in the farming practices on the other watershed.

During the first five years rainfall was slightly above normal and the runoff-producing rainfall averaged 17.4 inches annually. The following five years, 1948 through 1952, were drouth years and the runoff-producing rainfall averaged only 4.8 inches yearly. The total rainfall during the drouth period was two-thirds the amount for the normal five years, but most of it fell in such small amounts or at such a slow rate that it produced no runoff.

For the normal rainfall period there was almost no difference in the runoff from the untreated and treated watersheds, Mr. Smith reported. The annual average was 10.3 and 10.4 inches, respectively. During the drouth period the average yearly runoff from the untreated and treated watersheds was approximately 1.4 and 0.9 inches.

The fact that there was a difference of one-half inch in the annual runoff from these two watersheds during the drouth years is not the significant point, said Mr. Smith. This minor difference

in rate, even over a period of several years, would amount to so small a volume of water that it could not be considered in the planning of a dependable municipal water supply. The important point is that the TOTAL runoff from the untreated watershed during the five drouth years was only about two-thirds of the average runoff for ONE year during the normal rainfall period.

Mr. Smith emphasized that because runoff during drouth years may be very small, water supply reservoirs must have enough capacity to catch the water during years of normal to high runoff and store it for use during drouth periods. A city cannot depend on the runoff during a drouth to maintain its water supply. This is a fact which needs to be widely understood.

Although soil conservation practices on a watershed will not have a significant effect on water yield they can help greatly in protecting water supplies from loss of storage space by sedimentation. Conservation practices reduce erosion and the rate of reservoir sedimentation. By slowing down the rate at which reservoirs are filling with sediment, Mr. Smith said, more storage capacity will be maintained in which to store water for use during drouth years.

### Wayside News

Rev. Luther Baker filled his regular appointment Sunday.

Our community was saddened by the passing of another old-timer, T. H. Shipman, who passed away Sunday night, June 6, in Neblett Hospital in Canyon after a long illness. He was laid to rest in the Wayside Cemetery near his wife and daughter, June 8, at 3 p. m.

Mr. and Mrs. Grady Kennedy and Billy Jo and Miss Helen Meyers of Canyon were dinner guests last Sunday in the Charles Kennedy home.

Mrs. J. R. Stockett was a Tulia caller Friday p. m.

The E. O. Hutton family has moved out to the farm from Canyon for the summer.

Mr. and Mrs. W. R. Franklin were dinner guests in the Roy Franklin home last Sunday. The occasion was celebrating Kerry Franklin's 18th birthday.

Sharon Gayle and Roy Franklin, Jr., are visiting their grandparents, Mr. and Mrs. W. R. Franklin. Their home is in Canyon.

Mr. and Mrs. Charles Kennedy, Robert and Richard, left Wednesday for a visit with her parents near Goldthwaite. Mrs. J. R. Kennedy, Betty Ruth and Johnny Lee, accompanied them as far as Albany where they are visiting in the parental Ernest Kennedy home.

Dewitt McGehee is on a business trip to Logan, New Mexico. His wife, Ina, is visiting her father and mother, Mr. and Mrs. J. W. Thomas, near Amarillo.

Chapman Gillham of Nebraska, Donald of Keene, Texas, and Ben of Enterprise, Kansas, also Laura and Esther of Plainview are all spending their summer vacation in the parental Loys Gillham home.

J. R. Stockett made a business trip to Amarillo Thursday.

Mr. and Mrs. Charles Kennedy had the misfortune of losing their Jersey milk cow. They are not sure of the cause.

Mr. and Mrs. W. R. Franklin called on Mrs. L. J. McGehee last Sunday p. m. W. C. and Jack McGehee were also callers with Mrs. McGehee Sunday p. m. in Canyon.

### Don't Put on Sunday Clothes To Walk in Rain

"Would you put on your best Sunday suit to go walking in the rain?"

Col. E. B. Tilley of Houston, president of the Texas Safety Association, put this question to motorists as he discussed the speed control program which the Texas Safety Association, the Texas Department of Public Safety and the National Safety Council are conducting during June.

"Of course you wouldn't," he continued. "And you wouldn't think of serving yesterday's leftovers when the boss comes to dinner. There's a time and place for everything, and the sensible man fits his actions to the conditions in which he finds himself."

Col. Tilley pointed out that it's just as foolish to drive at a speed too fast for the prevailing conditions. Here too, the person involved just isn't using his head.

"A good driver always uses his head when he's behind the wheel," he said. "He doesn't travel at the same rate of speed when driving in snow, rain or darkness as he does when driving on a bright, sunny day. And, when he's not feeling up to par, or when he knows his car is not in top condition, he drives slower than he does when both he and the car are in the pink. He also slows down on rough or narrow roads."

"Driving at a speed that's safe for conditions merely means using ordinary good judgment," Col. Tilley said.

"Most of us pride ourselves on our good judgment," he said, "and there's no more important place to exercise it than behind the wheel. It means the difference between safe driving and dangerous driving. Let's keep it safe!"

## OUR DEMOCRACY—by Mat

### "FAIR-TO-MIDDLIN'"

THIS EXPRESSION IS GENERALLY CREDITED TO THE GRADING OF COTTON FOR MARKET. IN THE COTTON INDUSTRY THERE ARE NINE GRADES, RANGING UPWARD FROM "GOOD ORDINARY" TO "MIDDLING FAIR". IN ORDINARY USAGE WE HAVE GRADED THE EXPRESSION DOWN TO MEAN "PRETTY GOOD."

## India May Be Drawing Closer to The West Is Shown by Eden Antics

By HOWARD GOTTLIEB Foreign Correspondent

LONDON: That Mr. Eden has been flying back and forth between Geneva, Paris, and London is an indication that the British Government is taking the present stage of the negotiations going on over the situation in Indo-China very seriously. Rumor has had it for some time that there has been a concerted effort here to dampen down the ideas expressed by Mr. Dulles concerning what should be done in that area.

This in reality is not the case. The British go along with American aims in Southeast Asia, but at present they are not prepared to advance along the plan laid out by the United States.

While the reasons they give for their hesitation about joining the proposed Southeast Asia Pact are in many instances both understandable and logical, it is unfortunate that their attitude to the Dulles policy should have given the various Communist delegations at Geneva the opportunity of exploiting the West's differences.

Basically, Mr. Eden feels that if such an agreement along the lines of NATO were either pushed or hurried through right now, no matter how much similar defensive measures are required in Southeast Asia, the pact would not achieve its ultimate goal of giving confidence to the inhabitants and governments of the area.

What is required, he feels, is the cooperation and participation in such an agreement of one of the so-called "neutral" nations in the same area. This could be India, Ceylon, or Pakistan. The British Foreign Secretary has re-

cently stated that he has noted at Geneva a shift in the position of very neutral India in the role she has assumed in international affairs over the past couple of years.

This, he feels, has been a primary gain for the West and British policy is now evidently to continue to persuade the Indian Government to use their limited influence with Communist China to aid in solving the sticky business in Indo-China.

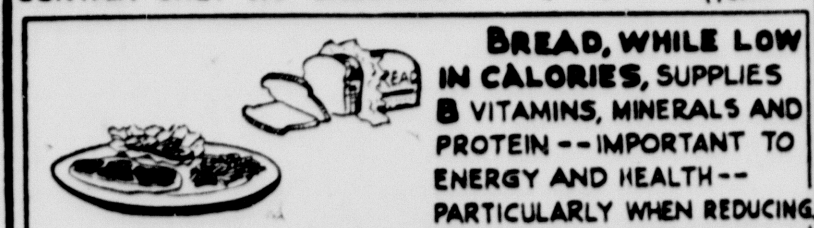

But while England refuses to be rushed by Mr. Dulles, far reaching events such as the collapse of French resistance at Dien Bien Phu continue to becloud any possible future solution. The picture thus remains a dilemma.

More basically perhaps is the possibility that Mr. Eden has also succumbed to Churchill's idea that in reality the Soviet does want a settlement of outstanding questions both in Europe and in the Far East. The concept of a "meeting at the summit" is indeed pernicious.

Eden, when he returned last week to London for an overnight stay, said he assumed that Mr. Molotov's attitude was perhaps not as adamant as it once had been, and that it was Red China who was holding everything up. While this could be so, recent Soviet actions and pronouncements make it seem quite unlikely. It appears that the Geneva sunshine has only succeeded in blinding Anthony Eden as well.

An English scientist says every man is worth \$8.00 to his country at the time of birth. We hope the tax collectors don't find it out.

## The Bread We Eat by Frohman

## Highway Patrol Releases Rural Accident Figures

Speeding was listed as the principal cause of the 12 persons killed during the month of May this year in rural accidents investigated by the State Highway Patrol, according to Captain J. W. Blackwell. Blackwell's report shows 74 persons injured and property damage amounting to \$57,714.

The accidents listed do not include any investigated by officers other than the highway patrol. Neither does it include accidents in cities exceeding 2,500 population.

A total of 92 accidents were investigated by the highway patrol. Seventy-five of these accidents occurred on state and federal high-

ways. Seven accidents occurred on farm-to-market roads and five in small towns with a population below 2,500.

Other causes besides speeding were given as following too closely, failure to yield right of way, driving while drinking, and driving on the wrong side of the road when not passing.

Last year during the month of May there were six persons killed, 45 injured and property damage amounting to \$63,000.

The 29 patrolmen of the Amarillo district, composed of 26 Panhandle counties, made 454 traffic arrests of which 162 were for speeding and 32 for driving while intoxicated. They gave a total of 1102 warnings for hazardous violations, worked 4,859 day hours and 2,466 night hours. During the month they traveled 59,968 miles.

Until June of this year the highway patrol listed 23 persons killed, 273 persons injured and property damage amounting to \$336,338.

Eleven Japanese radiation victims reported much better.

**YOU CAN'T**  
Progress always involves a certain amount of risk. After all, you can't steal second base and still keep one foot on first.

**NECESSARY**  
Legs are appendages that are extremely necessary to baseball players and girls who are trying to get to first base.

Bernard M. Baruch, retiring industrialist: "Citizens are mistaken when they argue against universal military training or readiness to mobilize because these things infringe on the 'freedom for which we are fighting!'"

Garage man — "What's wrong, lady?"

Woman — "They say I have a short circuit. Can you lengthen it while I wait?"

**WE WONDER, TOO**  
And for our part we do not envy the rich. We only look at them and wonder how they got that way.

## CHOCOLATE CHIFFON PIE

(Makes filling for 1 9-inch pie)

1/2 cup undiluted Carnation  
Evaporated Milk  
2 squares melted unsweetened  
chocolate  
1/2 cup boiling water  
1 tablespoon (1 envelope)  
plain gelatin  
1/4 cup cold water  
2 egg yolks  
1/4 cup sugar  
1/4 teaspoon salt  
1 teaspoon vanilla  
2 egg whites  
9-inch single crust baked pie shell

Chill Carnation in refrigerator tray (about 10-15 minutes) until ice crystals form around edges of tray. Whip until stiff (about 3 minutes). To melted chocolate add boiling water. Mix thoroughly. Add gelatin (which has been softened in cold water). Blend egg yolks, sugar, salt, and vanilla until light and fluffy. Add all the chocolate mixture to egg yolks, stirring constantly. Fold in beaten egg whites and whipped Carnation. Place in 9-inch baked pie shell. Chill until firm (about 1 to 2 hours).
